Endangered and Threatened Wildlife and Plants; Proposed Listing Priority Guidance for Fiscal Years 1998 and 1999

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces proposed guidance for assigning relative priorities to listing actions conducted under section 4 of the Endangered Species Act (Act) during fiscal year (FY) 1998 and FY 1999. Although the Service is returning to a more balanced listing program, serious backlogs remain and a method of prioritizing among the various activities is necessary. Highest

priority will be processing emergency listing rules for any species determined to face a significant and imminent risk to its well being. Second priority will be processing final determinations on proposed additions to the lists of endangered and threatened wildlife and plants; the processing of new proposals to add species to the lists; the processing of administrative petition findings to add species to the lists, delist species, or reclassify listed species (petitions filed under section 4 of the Act); and a limited number of delisting and reclassifying actions. Processing of proposed or final designations of critical habitat will be accorded the lowest priority.

DATES: Comments on this guidance will be accepted until April 6, 1998. The FY 1997 Listing Priority Guidance (extended on October 23, 1997) will remain in effect until the Final FY 1998 and FY 1999 guidance is published.

ADDRESSES: Comments regarding this guidance should be addressed to the Chief, Division of Endangered Species, U.S. Fish and Wildlife Service, 1849 C Street, N.W., Mailstop ARLSQ-452, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: E. LaVerne Smith, Chief, Division of Endangered Species, U.S. Fish and Wildlife Service, 703-358-2171 (see **ADDRESSES** section).

SUPPLEMENTARY INFORMATION:

Background

The Service adopted guidelines on September 21, 1983 (48 FR 43098-43105), that govern the assignment of priorities to species under consideration for listing as endangered or threatened under section 4 of the Endangered Species Act of 1973, *as amended* (16 U.S.C. 1531 *et seq.*). The Service adopted those guidelines to establish a rational system for allocating available appropriations to the highest priority species when adding species to the lists of endangered or threatened wildlife and plants or reclassifying threatened species to endangered status. The system places greatest importance on the immediacy and magnitude of threats, but also factors in the level of taxonomic distinctiveness by assigning priority in descending order to monotypic genera, full species, and subspecies (or equivalently, distinct population segments of vertebrates). However, this system does not provide for prioritization among different types of listing actions such as preliminary determinations, proposed listings, and final listings.

Serious backlogs of listing actions resulted from the 1995 funding
