

Geological Survey, Fort Collins, CO (970) 226-9438.

SUPPLEMENTARY INFORMATION: We submitted the following proposed information collection clearance requirement to OMB for review and approval under the Paperwork Reduction Act of 1995, Pub. L. 104-13. OMB has up to 60 days to approve or disapprove information collection. To ensure maximum consideration, OMB should receive public comments by June 1, 1999. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. We previously published a 60-day notice inviting public comment on this information collection in the **Federal Register** on February 16, 1999 (64 FR 7661).

We invite comments on: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Congress authorized a recreation fee demonstration program in Pub. L. 104-134. We were one of the four agencies mandated to implement the program and evaluate its impact on the visiting public. We designed this study to scientifically evaluate visitor reactions and impact of the fees on visitation to the national wildlife refuges (NWR); U.S. Geological Survey, Biological Resources Division, Social Economic and Institutional Analysis Section will conduct the survey under a cooperative agreement with us.

Although we planned to end this survey on December 15, 1998 with a joint report issued on March 31, 1999, a November, 1998 GAO report (GAO-RCED-99-7) recommended that only one year of data collection for the recreation fee demonstration program was insufficient. GAO concluded that this collection should continue for further evaluation. Section 328 of H.R. 4193 (subsequently in FY 1999 Interior appropriations) authorized extension of the program through FY 2001.

To represent the various types of fee changes as well as fee demonstration

refuges, we selected six distinct fee programs and nine refuges for inclusion in the study. These include (1) New entrance fees [Sacramento NWR, CA and Aransas NWR, TX]; (2) increased entrance fees [Dungeness NWR, WA]; (3) new annual passes [Chincoteague NWR, VA and Crab Orchard NWR, IL]; (4) new hunt fees [St. Catherine's Creek NWR, MS and Balcones Canyonlands NWR, TX]; (5) non-hunt use permits [Buenos Aires NWR, AZ] and (6) non-fee adjustments [Piedmont NWR, GA]. We will survey random samples of individuals using these refuges. We plan to use as part of the evaluation process a survey questionnaire to assess the different fee programs. We will distribute an on-site questionnaire during the peak season to a random sample of the visiting public and obtain a minimum of 400 completed surveys for each fee type. We will obtain additional information from Sacramento NWR to allow for examination of credit card entrances as well as new entrance fees in general. We will ask no questions of the participants, simply note payment by credit card. Overall, this will result in a total sample of 2,400 respondents. The margin of error for each fee type is $\pm 5\%$ at the 95% confidence level. The information gained from this survey will provide a viability of the fee program among the visiting public. The lead project officer is Dr. Jonathan G. Taylor, Research Social Scientist, phone 970/226/9438, 4512 McMurry Avenue, Fort Collins, CO 80525-3400.

Title: Evaluation of visitor responses to recreation fee demonstration program.

Bureau for number: None.

Frequency of collection: On Occasion.

Description of the respondents: Individuals and Households.

Number of respondents: 2,400.

Estimated completion time: 10 minutes.

Burden estimate: 400 hours.

Dated: April 6, 1999.

Bureau of Land Management

[ID-065-1220-00]

Upper Columbia-Salmon Clearwater Districts, Idaho; Notice of Closure and Restriction Order for BLM Lands in Short's Bar and Island Bar Areas, Order No. ID-060-15

SUMMARY: By order, the following closures and restrictions apply to the areas known as "Short's Bar," described as all public land administered by the Bureau of Land Management in T.24N., R.1E., section 14, Idaho County, Idaho and "Island Bar," described as all public land administered by the Bureau of Land Management in T.24N., R.2E., section 18.

(1) The possession or consumption of alcoholic beverages to a person under 21 years of age is prohibited.

(2) The sale or gift of an alcoholic beverage to a person under 21 years of age is prohibited.

The authority for establishing these closures and restrictions is 43 CFR 8364.1.

The closures and restrictions are in effect from April 30, 1999 through May 3, 1999.

The closures and restrictions are necessary to protect persons, property, public lands and resources. Persons abusing alcohol cause a public disturbance and create a risk to other persons on public lands.
