AGENCY: Fish and Wildlife Service,

ACTION: Proposed minor revisions to
existing systems of records.

SUMMARY: The U.S. Fish and Wildlife

SUPPLEMENTARY INFORMATION: We list the

the U.S. Fish and Wildlife Service
revised and a brief explanation of the
minor revisions which they made.
Following that information, we attached

writing.

Permits—Interior, FWS-5"* previously
published in the **Federal Register** on
December 6, 1983 (48 FR 54716):

(1) We changed the name of the
system manager to reflect that office's
current title.

(2) We converted the notice to plain
language to implement the President's
memorandum of June 1, 1998, requiring
the use of plain language in Government
writing.

*"National Fish Hatchery Special Use
Permits—Interior, FWS-10"* previously
published in the **Federal Register** on
December 6, 1983 (48 FR 54717):

(1) We changed the system location.

The records are no longer maintained in
the regional offices. They are
maintained at the National Fish
Hatcheries.

(2) We changed the name of the
system manager to reflect the current
title of that office.

(3) We converted the notice to plain
language to implement the President's
memorandum of June 1, 1998, requiring
the use of plain language in Government
writing.

*"Real Property Records—Interior,
FWS-11"* previously published in the
Federal Register on December 6, 1983
(48 FR 54717):

(1) We updated the system location to
include the Washington Office, Division
of Realty as another system location.

(2) We updated the section entitled
"Authority for maintenance of the
system."

(3) We updated the section entitled
"Routine uses of records maintained in
the system" to include the required
summary reports which we produce
(stripped of personal identifiers).

(4) We updated the system managers
to reflect a more current address for the
Washington Office, Division of Realty;
and to include the U.S. Fish and
Wildlife Services regional offices.

(5) We added the mandatory section
entitled "Disclosure to consumer
reporting agencies".

(6) We included electronic storage as
another medium we use to store records.

(7) We converted the notice to plain
language in order to implement the
President's memorandum of June 1,
1998, requiring the use of plain
language in Government writing.

*"Endangered Species Licensee
System—Interior, FWS-19"* previously
published in the **Federal Register** on
December 6, 1983 (48 FR 54718):

(1) We updated the system location to
reflect the current address of the system.

(2) We dropped several categories of
records which were part of the old
system as we no longer collect the
information.

(3) We updated the system manager
and address to reflect the current
address.

(4) We converted the notice to plain
language to implement the President's
memorandum of June 1, 1998, requiring
the use of plain language in Government
writing.

*"Investigative Case File System—
Interior, FWS-20"* previously published
in the **Federal Register** on December 6,
1983 (48 FR 54719):

(1) We included more specific
information about the computerized
system being a local area network (LAN)
system and password protected.

"U.S. Deputy Game Warden—Interior, FWS-22" previously published in the **Federal Register** on March 24, 1981 (46 FR 18375):

(1) We changed the system manager because the program was decentralized and records are now maintained at participating regions. Additionally requests for access and amendments to one's record go to the participating regional offices instead of the Washington Office, Division of Personnel Management.

(2) We added the mandatory section entitled "Disclosure to consumer reporting agencies".

(3) We converted the notice to plain language to implement the President's memorandum of June 1, 1998, requiring the use of plain language in Government writing.

"Migratory Bird Population and Harvest Systems—Interior, FWS-26" previously published in the **Federal Register** on March 24, 1981 (46 FR 18378):

(1) We eliminated 3 categories of individuals covered by the system. Many of the U.S. Fish and Wildlife Service research functions are now part of the U.S. Geological Survey's Biological Resources Division. They now have responsibility for the following categories of individuals previously collected by the U.S. Fish and Wildlife Service under this Privacy Act system: persons applying for bird banding permits; persons issued bird banding permits; and persons reporting upon banded birds encountered in the wild.

Additionally, we eliminated another category of individuals covered by the system because the program indicated it never needed or collected the information. We previously identified this category as "unidentified persons observed in the field hunting migratory game birds."

(2) Because we eliminated the above categories of individuals covered by the system, we needed to make corresponding minor changes in the sections of this notice which deal with categories of records we collect, the routine uses of the records, retention and disposal of the records, notification procedure, and the record source categories. Therefore, we updated those sections.

(3) We added the mandatory section entitled "Disclosure to consumer reporting agencies".

(4) We updated the address for the system manager.

(5) We converted the notice to plain language to implement the President's memorandum of June 1, 1998, requiring the use of plain language in Government writing.

"Correspondence Control System—Interior, FWS-27" previously published in the **Federal Register** on April 11, 1977 (42 FR 19092):

(1) We updated the system location to more accurately reflect where the records are maintained.

(2) We updated the name of the system manager to reflect the current title of that office.

(3) We added the mandatory section entitled "Disclosure to consumer reporting agencies".

(4) We converted the notice to plain language to implement the President's memorandum of June 1, 1998, requiring the use of plain language in Government writing.
