DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Extension of Approved Information Collection, OMB Number 1018-0093, on Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service is announcing its intention to request renewal of its existing approval to collect certain information from applicants who wish to obtain a permit to conduct activities under a number of wildlife conservation laws, treaties and regulations. We will submit the collection of information listed below to the Office of Management and Budget (OMB) for approval under the provisions of the Paperwork Reduction Act of 1995. If you wish to obtain copies of the proposed information collection requirement, related forms, and explanatory material, contact the Collection Clearance Officer at the address listed below.

DATES: You must submit comments on or before September 5, 2000.

ADDRESSES: Send your comments and suggestions on specific requirements to the Collection Clearance Officer, U.S.

Fish and Wildlife Service, MS 222-ARLSQ; 4401 N. Fairfax Drive, Arlington, VA 22203.

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection request, explanatory information and related forms, contact Rebecca A. Mullin, Collection Clearance Officer at 703-358-2287, or electronically to rmullin@fws.gov.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. We plan to submit a request to OMB to renew its approval of the collection of information for the Service's license/permit application form number 3-200-19 through 3-200-25 and 3-200-27 through 3-200-53. We are requesting a 3-year term of approval for this information collection activity.

We modified the format of the first page of the application form so that the information fields on the form correspond to the data fields in our Service-wide permits issuance and tracking computer system. We also modified the format and content of the supplemental page(s) of the application forms for clarity and to be less burdensome to complete.

We invite comments concerning this renewal on: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden, (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4)

ways to minimize the burden of the collection of information on those who are to respond. The information collections in this program are part of a system of record covered by the Privacy Act [5 U.S.C. 552 (a)].

The information on the application and the attachments will be used by the Service to review permit applications and allow the Service to make an assessment according to criteria established in various Federal wildlife conservation laws, treaties and regulations, on the issuance, suspension, revocation or denial of permits.

Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is 1018-0093.

The information collection requirements in this submission implement the regulatory requirements of the Endangered Species Act (16 U.S.C. 1539), the Migratory Bird Treaty Act (15 U.S.C. 704), the Lacey Act (18 U.S.C. 42-44), the Bald and Golden Eagle Protection Act (16 U.S.C. 668), the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), (27 UST 108), the Marine Mammal Protection Act (16 U.S.C. 1361-1407), and Wild Bird Conservation Act (16 U.S.C. 4901-4916), and are contained in Service regulations in Chapter I, Subchapter B of Title 50 Code of Federal Regulations (CFR). Common permit application and record keeping requirements have been consolidated in 50 CFR 13, and unique requirements of the various statutes in the applicable part as described in the table.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

AGENCY: Fish and Wildlife Service, Department of the Interior.
ACTION: Notice of availability.

SUMMARY: Pursuant to the National Wildlife Refuge System Improvement Act of 1997, the U.S. Fish and Wildlife Service has published a Revised Draft Comprehensive Conservation Plan and Environmental Assessment for the Edwin B. Forsythe and Cape May National Wildlife Refuges in New Jersey. This plan describes how the Service intends to manage the Forsythe and Cape May Refuges for the next 15 years.

DATES: A formal public hearing will be held at 7 PM on July 19, 2000. The hearing will provide an opportunity for all interested parties to present oral or written testimony on the revised draft document before a hearing officer and court reporter. Those wishing to do so will be able to sign up to speak when they enter the hearing room. This formal public hearing will be held at: Absegami High School, 201 South Wrangleboro Road, Galloway Township, Atlantic County, New Jersey.

All other comments should be sent by either traditional or electronic mail, no later than August 4, 2000, to: The Jersey Coast Refuges Planning Team, U.S. Fish and Wildlife Service, 300 Westgate Center Drive, Hadley, MA 01035-9589, or FW5RW_CCP@fws.gov.

ADDRESSES: Additional information or copies of an executive summary of the plan or the complete document may be obtained by contacting Steve Atzert, Edwin B. Forsythe National Wildlife Refuge, P.O. Box 72, Great Creek Road, Oceanville, New Jersey 08231-0072, telephone 609/652-1665.

SUPPLEMENTARY INFORMATION: The Service's Proposed Action and two other alternatives are described, along with the process used to develop them and the environmental consequences of implementing each one. The three alternatives are:

Alternative A. This is the No Action Alternative required by the Council of Environmental Quality's regulations on the implementation of the National Environmental Policy Act (NEPA). Selection of this Alternative would mean that there would be no change from our current management programs and emphasis at both Refuges. Seasonal

travel and parking of motor vehicles would continue to be allowed in the Holgate Unit of the Brigantine Wilderness Area, on lands above mean high tide, in violation of the Wilderness Act of 1964.

Alternative B. Alternative B is the Service's Proposed Action. This Alternative would initiate new wildlife population and habitat management programs; provide new wildlife-dependent recreation opportunities; increase our land protection efforts; and provide new office and visitor facilities at both Refuges. All lands above mean high tide in the Holgate Unit of the Brigantine Wilderness Area would be closed to motor vehicle use by the public year-round in compliance with the provisions of the Wilderness Act. We would initiate efforts to establish a seasonal boat concession to ferry anglers and other Refuge visitors to the southern tip of the Holgate Peninsula.

Alternative C. This Alternative would initiate new wildlife population and habitat management programs; provide new wildlife-dependent recreation opportunities Refuge-wide; increase our land protection efforts; and provide new or remodeled office and visitor facilities at both Refuges. All lands above mean high tide in the Holgate Unit of the Brigantine Wilderness Area would be closed to motor vehicle use by the public year-round in compliance with the provisions of the Wilderness Act. We would also seek to further restrict motor vehicle access at the Holgate Unit by obtaining a license from the New Jersey Tidelands Council to close State-owned riparian lands below the mean high tide line. Efforts would be initiated to establish a seasonal boat concession to ferry anglers and other Refuge visitors
