

SUMMARY: EPA is proposing to remove the conditional status of its approval of the Commonwealth of Pennsylvania State Implementation Plan (SIP) revision that requires all major sources of volatile organic compounds (VOC) and nitrogen oxides (NO_x) to implement reasonably available control technology (RACT). In the "Rules and Regulations" section of this **Federal Register**, EPA is removing the conditional nature of its approval of the Commonwealth's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. The rationale for removing the conditional status of EPA's approval is set forth in the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by June 4, 2001.

ADDRESSES: Written comments should be addressed to David L. Arnold, Chief, Air Quality Planning and Information Services Branch, Mailcode 3AP21, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Clean Air Act Approval and Promulgation of the Redesignation of Shelby County, TN, to Attainment for Lead

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the State Implementation Plan submitted on February 15, 2001, by the Memphis and Shelby County Health Department through the Tennessee Department of Environment and Conservation for the purpose of redesignating Shelby County from nonattainment to attainment for the lead national ambient air quality standard. In the Final Rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

50 CFR Part 17

RIN 1018-AH83

Endangered and Threatened Wildlife and Plants; Proposed Designation of Critical Habitat for the Robust Spineflower; Correction

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed Rule; technical corrections.

SUMMARY: We, the U.S. Fish and Wildlife Service, published a proposed rule to establish critical habitat for the robust spineflower (*Chorizanthe robusta* var. *robusta*) in the **Federal Register** on February 15, 2001. The proposed rule contained several errors in the map and legal description for the Freedom mapping unit (Unit D). This document contains corrections to the proposed rule to designate critical habitat for *Chorizanthe robusta* var. *robusta* for this proposed critical habitat unit.

DATES: We will accept comments until the close of business on June 4, 2001. Requests for public hearings must be received by May 23, 2001.

ADDRESSES: Comment submission: If you wish to comment, you may submit your comments and materials by any one of several methods:

1. You may submit written comments and information to Diane Noda, Field Supervisor, Ventura Fish and Wildlife Office, 2394 Portola Road, Suite B, Ventura, California 93003. You may also hand-deliver written comments to our Ventura Fish and Wildlife Office at the address given above.

2. You may send comments by electronic mail (e-mail) to: robustsf@fws.gov See the Public Comments Solicited section below for file format and other information on electronic filing.

Comments and materials received, as well as supporting documentation used in the preparation of this proposed rule, will be available for public inspection,

by appointment, during normal business hours at the Ventura Fish and Wildlife Office.

FOR FURTHER INFORMATION CONTACT:

Diane Noda, Field Supervisor, at the address above (telephone 805/644-1766; facsimile 805/644-3958).

SUPPLEMENTARY INFORMATION:

Background

On February 15, 2001, we proposed critical habitat for the robust spineflower (*Chorizanthe robusta* var. *robusta*), pursuant to the Endangered Species Act of 1973, as amended (Act) (16 U.S.C. 1531 *et seq.*) (66 FR 10419). A total of approximately 660 hectares (ha) (1,635 acres (ac)) of land fall within the boundaries of the proposed critical habitat designation, all in Santa Cruz County, California.

The proposed rulemaking contained errors in the mapping and legal description for the Freedom mapping unit (Unit D). In the proposed rule, we inadvertently mapped this unit to the north and east of the correct location. We are providing a corrected Geographic Information System (GIS) map and a corrected legal description of the mapping unit. The GIS map is provided to help the public understand the general location of the proposed critical habitat. A corrected version of Table 5 is also provided; this table provides approximate areas of proposed critical habitat for *Chorizanthe robusta* var. *robusta* by land ownership. The corrected table indicates that for the

Freedom Unit, approximately 3.8 ha (9.5 ac) are on private lands and 0.2 ha (0.5 ac) are on lands under local jurisdiction.

Public Comments Solicited

We intend that any final action resulting from this technical clarification be as accurate as possible. Comments and suggestions from the public, concerned governmental entities, private interests, or any other interested party are solicited. Comments are invited specifically concerning:

- (1) Biological data concerning any threat (or lack thereof) to *Chorizanthe robusta* var. *robusta*;
- (2) The location of any additional populations of the species, and the reasons why any habitat in should or should not be designated as critical habitat, as provided by section 4 of the Act;
- (3) Additional information concerning the range, distribution, and population size of *Chorizanthe robusta* var. *robusta*; and
- (4) Current or planned activities within the proposed critical habitat units and their possible impacts on the species.

National Environmental Policy Act

We have determined that environmental assessments and environmental impact statements, as defined in the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the

Act. We published a notice outlining our reasons for this determination in the **Federal Register** on October 25, 1983 (48 FR 49244).

Paperwork Reduction Act

This rule does not contain any new collections of information other than those already approved under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, and assigned Office of Management and Budget clearance number 1018-0094. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number. For additional information concerning permit and associated requirements for endangered species, see 50 CFR 17.62 and 17.63.

Author(s)

The primary authors of this proposed rule is Connie Rutherford (see **ADDRESSES** section), and Barbara Behan, U.S. Fish and Wildlife Service, 911 N.E. 11th Avenue, Portland, Oregon 97232 (telephone 503/231-6131).

Authority

The authority for this action is the Endangered Species Act (16 U.S.C. 1531 *et seq.*)
