DEPARTMENT OF JUSTICE

Antitrust Division

[Civil Case No. 02-1768]

Proposed Final Judgment and Competitive Impact Statement; United States v. Archer-Daniels-Midland Company and Minnesota Corn Processors, LLC

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16(b)-(h), that a proposed Final Judgment, Stipulation and Order, and Competitive Impact Statement have been filed with the United States District Court for the District of Columbia in *United States v. Archer-Daniels-Midland Company and Minnesota Corn Processors, LLC*, Civil Case No. 1:02 CV 01768 (JDB). The proposed Final Judgment is subject to approval by the Court after the expiration of the statutory 60-day public comment period and compliance with the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b)-(h).

On September 6, 2002, the United States filed a Complaint alleging that the proposed acquisition by Archer-Daniels-Midland Company of Minnesota Corn Processors, LLC would violate section 7 of the Clayton Act, 15 U.S.C. 18, by substantially lessening competition in the manufacture and sale of corn syrup and high fructose corn syrup ("HFCS") in the United States and Canada. ADM and MCP are two of the largest corn wet millers in the United States, competing against only four other firms in the manufacture and sale of corn syrup and HFCS. MCP sells these products through an exclusive sales joint venture that it formed in December 2000 with another corn wet miller, Corn Products International, Inc. To preserve competition, the proposed Final Judgment requires the defendants to dissolve the joint venture that MCP formed with CPI by December 31, 2002, thus allowing CPI to compete independently. A Competitive Impact Statement, filed by the United States, describes the Complaint, the proposed Final Judgment, and remedies available to private litigants. Copies of the Complaint, the proposed Final
