

(12) *Approaches to New York, Atlantic Ocean.* The following area is a security zone: All waters of the Atlantic Ocean between the Ambrose to Hudson Canyon Traffic Lane and the Barnegat to Ambrose Traffic Lane bound by the following points: 40°21'29.9" N, 073°44'41.0" W, thence to 40°21'04.5" N, 073°45'31.4" W, thence to 40°15'28.3" N, 073°44'13.8" W, thence to 40°15'35.4" N, 073°43'29.8" W, thence to 40°19'21.2" N, 073°42'53.0" W, (NAD 1983) thence to the point of origin.

(b) *Regulations.* (1) Entry into or remaining in a safety or security zone is prohibited unless authorized by the Coast Guard Captain of the Port, New York.

(2) Persons desiring to transit the area of a safety or security zone may contact the Captain of the Port at telephone number 718-354-4088 or on VHF channel 14 (156.7 MHz) or VHF channel 16 (156.8 MHz) to seek permission to transit the area. If permission is granted, all persons and vessels must comply with the instructions of the Captain of the Port or his or her designated representative.

(3) Vessels not actively engaged in authorized vessel to facility transfer operations shall not stop or loiter within that part of a commercial waterfront facility safety and security zone extending into the navigable channel, described in paragraph (a)(3) of this section, without the express permission of the Coast Guard Captain of the Port or his or her designated representative, including on-scene patrol personnel.

(4) The zone described in paragraph (a)(12) of this section is not a Federal Anchorage Ground. Only vessels directed by the Captain of the Port or his or her designated representative to enter this zone are authorized to anchor here.

(5) Vessels do not need permission from the Captain of the Port to transit the area described in paragraph (a)(12) of this section during periods when that security zone is not being enforced.

(c) *Enforcement.* Enforcement periods for the zone in paragraph (a)(12) of this section will be announced through marine information broadcast or other appropriate method of communication. The Coast Guard is enforcing the zone whenever a vessel is anchored in the security zone or a Coast Guard patrol vessel is on-scene.

Dated: May 14, 2004.

C.E. Bone,

Captain, U.S. Coast Guard, Captain of the Port, New York.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 100

Subsistence Management Regulations for Public Lands in Alaska, Subpart D; Seasonal Adjustments—Copper River

AGENCIES: Forest Service, USDA; Fish and Wildlife Service, Interior.

ACTION: Seasonal adjustments.

SUMMARY: This provides notice of the Federal Subsistence Board's in-season management actions to protect sockeye salmon escapement in the Copper River, while still providing for a subsistence harvest opportunity. The fishing schedules and closures will provide an exception to the Subsistence Management Regulations for Public Lands in Alaska, published in the *Federal Register* on February 3, 2004. Those regulations established seasons, harvest limits, methods, and means relating to the taking of fish and shellfish for subsistence uses during the 2004 regulatory year.

DATES: The fishing schedule for the Chitina Subdistrict of the Upper Copper River District is effective May 15, 2004, through July 12, 2004. The fishing schedule for the Glennallen Subdistrict of the Upper Copper River District is effective May 15, 2004, through June 1, 2004.

FOR FURTHER INFORMATION CONTACT: Thomas H. Boyd, Office of Subsistence Management, U.S. Fish and Wildlife Service, telephone (907) 786-3888. For questions specific to National Forest System lands, contact Steve Kessler, Subsistence Program Manager, USDA—Forest Service, Alaska Region, telephone (907) 786-3592.

SUPPLEMENTARY INFORMATION:

Background

Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3111-3126) requires that the Secretary of the Interior and the Secretary of Agriculture (Secretaries) implement a joint program to grant a preference for subsistence uses of fish and wildlife resources on public lands in Alaska, unless the State of Alaska enacts and implements laws of general applicability that are consistent with ANILCA and that provide for the subsistence definition,

preference, and participation specified in Sections 803, 804, and 805 of ANILCA. In December 1989, the Alaska Supreme Court ruled that the rural preference in the State subsistence statute violated the Alaska Constitution and, therefore, negated State compliance with ANILCA.

The Department of the Interior and the Department of Agriculture (Departments) assumed, on July 1, 1990, responsibility for implementation of Title VIII of ANILCA on public lands. The Departments administer Title VIII through regulations at Title 50, Part 100 and Title 36, Part 242 of the Code of Federal Regulations (CFR). Consistent with Subparts A, B, and C of these regulations, as revised January 8, 1999, (64 FR 1276), the Departments established a Federal Subsistence Board to administer the Federal Subsistence Management Program. The Board's composition includes a Chair appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture; the Alaska Regional Director, U.S. Fish and Wildlife Service; the Alaska Regional Director, National Park Service; the Alaska State Director, Bureau of Land Management; the Alaska Regional Director, Bureau of Indian Affairs; and the Alaska Regional Forester, USDA Forest Service. Through the Board, these agencies participate in the development of regulations for Subparts A, B, and C, which establish the program structure and determine which Alaska residents are eligible to take specific species for subsistence uses, and the annual Subpart D regulations, which establish seasons, harvest limits, and methods and means for subsistence take of species in specific areas. Subpart D regulations for the 2004 fishing seasons, harvest limits, and methods and means were published on February 3, 2004 (69 FR 5018).

Because this action relates to public lands managed by an agency or agencies in both the Departments of Agriculture and the Interior, identical closures and adjustments would apply to 36 CFR part 242 and 50 CFR part 100.

The Alaska Department of Fish and Game (ADF&G), under the direction of the Alaska Board of Fisheries (BOF), manages sport, commercial, personal use, and State subsistence harvest on all lands and waters throughout Alaska. However, on Federal lands and waters, the Federal Subsistence Board implements a subsistence priority for rural residents as provided by Title VIII of ANILCA. In providing this priority, the Board may, when necessary, preempt State harvest regulations for fish or wildlife on Federal lands and waters.

These adjustments are necessary because of the need to maintain the viability of salmon stocks in the Copper River based on in-season run assessments. These actions are authorized and in accordance with 50 CFR 100.19(d-e) and 36 CFR 242.19(d-e).

Copper River—Chitina Subdistrict

In December 2001, the Board adopted regulatory proposals establishing a new Federal subsistence fishery in the Chitina Subdistrict of the Copper River. This fishery is open to Federally qualified users having customary and traditional use of salmon in this Subdistrict. The State conducts a personal use fishery in this Subdistrict that is open to all Alaska residents.

Management of the fishery is based on the numbers of salmon returning to the Copper River. A larger than predicted salmon run will allow additional fishing time. A smaller than predicted run will require restrictions to achieve upriver passage and spawning escapement goals. A run that approximates the pre-season forecast will allow fishing to proceed similar to the pre-season schedule with some adjustments made to fishing time based on in-season data. Adjustments to the preseason schedule are expected as a normal function of an abundance-based management strategy. State and Federal managers, reviewing and discussing all available in-season information, will make these adjustments.

While Federal and State regulations currently differ for this Subdistrict, the Board indicated that Federal in-season management actions regarding fishing periods were expected to mirror State actions. The State established a preseason schedule of allowable fishing periods based on daily projected sonar estimates. This preseason schedule is intended to distribute the harvest throughout the salmon run and provide salmon for upriver subsistence fisheries and the spawning escapement. The salmon season is closed until the first open period scheduled for June 3, 2004, at 6 a.m. Shown below are the fishing schedule openings for the Chitina Subdistrict of the Copper River:

Thursday, June 3, 6 a.m.—Sunday, June 6, 11:59 p.m.
 Monday, June 7, 12:01 a.m.—Sunday June 13, 11:59 p.m.
 Monday, June 14, 12:01 a.m.—Sunday June 20, 11:59 p.m.
 Monday, June 21, 12:01 a.m.—Sunday June 27, 11:59 p.m.
 Monday, June 28, 12:01 a.m.—Sunday July 4, 11:59 p.m.
 Monday, July 5, 12:01 a.m.—Sunday July 11, 11:59 p.m.

Monday, July 12, 12:01 a.m.—Sunday July 18, 11:59 p.m.

Monday, July 19, 12:01 a.m.—Sunday September 30, 11:59 p.m.

State personal use and Federal subsistence fisheries in this Subdistrict close simultaneously by regulation on September 30, 2004. No deviation from this date is anticipated.

Copper River—Glennallen Subdistrict

In December 2000, the Board adopted a regulatory proposal opening the Glennallen Subdistrict of the Copper River to Federally qualified users May 15. This allowed Federally qualified users to harvest salmon prior to the State subsistence fishing season that opens June 1. This fishery is open to Federally qualified users having customary and traditional use of salmon in this Subdistrict. The State conducts a personal use fishery in this Subdistrict that is open to all Alaska residents. Salmon migrating through the Glennallen Subdistrict during this period are likely to spawn in upper river tributaries based on prior studies conducted by the Alaska Department of Fish and Game. In 2003, Federally qualified users harvested approximately 750 salmon in the Glennallen Subdistrict during May. None of this harvest appears to have occurred upstream of the Gakona River.

The State has briefly delayed the opening of the commercial fishery near the mouth of the Copper River predicated on the pre-season forecast. Production from the early portion of the natural run may be weak because of low inriver escapements prior to mid June in brood years 1999 and 2000. If Miles Lake sonar estimates are substantially below the forecasted levels both the State and the Board will reduce the open periods in the Chitina Subdistrict as described in the Copper River Salmon Management Plan (5 AAC 24.360). Management of the fishery is based on the numbers of salmon returning to the Copper River. A larger than predicted salmon run will allow additional fishing time. A smaller than predicted run will require restrictions to achieve upriver passage and spawning escapement goals.

In May of 2004, Federally qualified users that harvest salmon upstream of the Gakona River strongly expressed concerns that their harvest is declining and that one of the causes of this decline is harvest of salmon downstream. Harvest data from 1996 through 2003 suggest that this may be a valid concern. No data regarding early run escapement is available until the Miles Lake sonar is operational and salmon passing the sonar site have

arrived within the Glennallen Subdistrict (approximately 3 weeks' travel time). Therefore, this action utilizes a conservative approach and restricts the fishery until data from the Miles Lake sonar are available.

The Glennallen Subdistrict of the Copper River will be closed to the harvest of salmon until June 1, 2004.

Federally qualified users downstream of the Gakona River are not expected to be significantly impacted by this action because they have ample opportunity to harvest additional salmon stocks that enter the Subdistrict later to spawn in tributaries downstream of the Gakona River.

State and Federal subsistence fisheries in this Subdistrict close simultaneously by regulation on September 30, 2004. No deviation from this date is anticipated.

The Board finds that additional public notice and comment requirements under the Administrative Procedure Act (APA) for these adjustments are impracticable, unnecessary, and contrary to the public interest. Lack of appropriate and immediate conservation measures could seriously affect the continued viability of fish populations, adversely impact future subsistence opportunities for rural Alaskans, and would generally fail to serve the overall public interest. Therefore, the Board finds good cause pursuant to 5 U.S.C. 553(b)(3)(B) to waive additional public notice and comment procedures prior to implementation of these actions and pursuant to 5 U.S.C. 553(d)(3) to make this rule effective as indicated in the **DATES** section.

Conformance With Statutory and Regulatory Authorities

National Environmental Policy Act Compliance

A Final Environmental Impact Statement (FEIS) was published on February 28, 1992, and a Record of Decision on Subsistence Management for Federal Public Lands in Alaska (ROD) was signed April 6, 1992. The final rule for Subsistence Management Regulations for Public Lands in Alaska, Subparts A, B, and C (57 FR 22940–22964, published May 29, 1992) implemented the Federal Subsistence Management Program and included a framework for an annual cycle for subsistence hunting and fishing regulations. A final rule that redefined the jurisdiction of the Federal Subsistence Management Program to include waters subject to the subsistence priority was published on January 8, 1999 (64 FR 1276.)

Compliance With Section 810 of ANILCA

The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. A Section 810 analysis was completed as part of the FEIS process. The final Section 810 analysis determination appeared in the April 6, 1992, ROD, which concluded that the Federal Subsistence Management Program, under Alternative IV with an annual process for setting hunting and fishing regulations, may have some local impacts on subsistence uses, but the program is not likely to significantly restrict subsistence uses.

Paperwork Reduction Act

The adjustment and emergency closures do not contain information collection requirements subject to Office of Management and Budget (OMB) approval under the Paperwork Reduction Act of 1995.

Other Requirements

The adjustments have been exempted from OMB review under Executive Order 12866.

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations, or governmental jurisdictions. The exact number of businesses and the amount of trade that will result from this Federal land-related activity is unknown. The aggregate effect is an insignificant economic effect (both positive and negative) on a small number of small entities supporting subsistence activities, such as boat, fishing gear, and gasoline dealers. The number of small entities affected is unknown; however, the effects will be seasonally and geographically-limited in nature and will likely not be significant. The Departments certify that the adjustments will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act. Under the Small Business Regulatory Enforcement Fairness Act (5 U.S.C. 801 *et seq.*), this rule is not a major rule. It does not have an effect on the economy of \$100 million or more, will not cause a major increase in costs or prices for consumers, and does not have significant adverse effects on

competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Title VIII of ANILCA requires the Secretaries to administer a subsistence preference on public lands. The scope of this program is limited by definition to certain public lands. Likewise, the adjustments have no potential takings of private property implications as defined by Executive Order 12630.

The Service has determined and certifies pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 *et seq.*, that the adjustments will not impose a cost of \$100 million or more in any given year on local or State governments or private entities. The implementation is by Federal agencies, and no cost is involved to any State or local entities or Tribal governments.

The Service has determined that the adjustments meet the applicable standards provided in Sections 3(a) and 3(b)(2) of Executive Order 12988, regarding civil justice reform. In accordance with Executive Order 13132, the adjustments do not have sufficient federalism implications to warrant the preparation of a Federalism Assessment. Title VIII of ANILCA precludes the State from exercising subsistence management authority over fish and wildlife resources on Federal lands. Cooperative salmon run assessment efforts with ADF&G will continue.

In accordance with the President's memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal Governments" (59 FR 22951), Executive Order 13175, and 512 DM 2, we have evaluated possible effects on Federally recognized Indian tribes and have determined that there are no effects. The Bureau of Indian Affairs is a participating agency in this rulemaking.

On May 18, 2001, the President issued Executive Order 13211 on regulations that significantly affect energy supply, distribution, or use. This Executive Order requires agencies to prepare Statements of Energy Effects when undertaking certain actions. As these actions are not expected to significantly affect energy supply, distribution, or use, they are not significant energy actions and no Statement of Energy Effects is required.

Drafting Information

Theodore Matuskowitz drafted this document under the guidance of Thomas H. Boyd, of the Office of Subsistence Management, Alaska Regional Office, U.S. Fish and Wildlife Service, Anchorage, Alaska. Taylor Brelsford, Alaska State Office, Bureau of

Land Management; Rod Simmons, Alaska Regional Office, U.S. Fish and Wildlife Service; Bob Gerhard, Alaska Regional Office, National Park Service; Dr. Glenn Chen, Alaska Regional Office, Bureau of Indian Affairs; and Steve Kessler, USDA-Forest Service, provided additional guidance.

Authority: 16 U.S.C. 3, 472, 551, 668dd, 3101-3126; 18 U.S.C. 3551-3586; 43 U.S.C. 1733.

Dated: May 25, 2004.

Thomas H. Boyd,

Acting Chair, Federal Subsistence Board.

Dated: May 25, 2004.

Steve Kessler,

Subsistence Program Leader, USDA-Forest Service.

BILLING CODE 3410-11-P; 4310-55-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 282

[FRL-7657-4]

Underground Storage Tank Program: Approved State Program for West Virginia

AGENCY: Environmental Protection Agency (EPA).

ACTION: Immediate final rule.

SUMMARY: The Resource Conservation and Recovery Act of 1976, as amended (RCRA), authorizes the EPA to grant approval to States to operate their underground storage tank programs in lieu of the Federal program. The Code of Federal Regulations (CFR) contains a codification of EPA's decision to approve State programs and incorporates by reference those provisions of the State statutes and regulations that will be subject to EPA's inspection and enforcement authorities in accordance with sections 9005 and 9006 of RCRA Subtitle I and other applicable statutory and regulatory provisions. This rule codifies the prior approval of the State of West Virginia's (State) underground storage tank program and incorporates by reference appropriate provisions of State statutes and regulations.

DATES: This regulation is effective August 16, 2004, unless EPA receives adverse written comments by the close of business July 15, 2004. If EPA receives adverse written comments, we will publish a timely withdrawal in the **Federal Register**. The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register, as of
