

Treasury determines, pursuant to a statutory formula based on the average yield on all outstanding marketable Treasury obligations of 8-to 12-year maturities, for the 6-month periods of January through June and July through December of each year. Section 221(g)(4) is implemented in the HUD regulations at 24 CFR 221.255 and 24 CFR 221.790.

The Secretary of the Treasury has determined that the interest rate to be borne by debentures issued pursuant to Section 221(g)(4) during the 6-month period beginning January 1, 2004, is 5¼ percent.

HUD expects to publish its next notice of change in debenture interest rates in July 2004.

The subject matter of this notice falls within the categorical exemption from HUD's environmental clearance procedures set forth in 24 CFR 50.19(c)(6). For that reason, no environmental finding has been prepared for this notice.

(Sections 211, 221, 224, National Housing Act, 12 U.S.C. 1715b, 1715l, 1715o; Section 7(d), Department of HUD Act, 42 U.S.C. 3535(d))

Dated: March 1, 2004.

**BILLING CODE 4210-27-P**

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**Availability of Final Revised Environmental Assessment, Management Plan, and Implementation Guidance, and a Finding of No Significant Impact for Take of Nestling American Peregrine Falcons in the Contiguous United States and Alaska for Use in Falconry**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** This notice is to announce the availability of a Final Revised

Environmental Assessment, Management Plan, and Implementation Guidance, and a Finding of No Significant Impact for take of nestling American Peregrine Falcons (*Falco peregrinus anatum*) for use in falconry. We published the Draft Revised Environmental Assessment in April 2003. We considered 945 comments in revising the assessment. After completion of the Final Revised Environmental Assessment, we also produced a Finding of No Significant Impact for the action.

**ADDRESSES:** The documents are available from the Division of Migratory Bird Management, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Mail Stop 4107, Arlington, Virginia 22203-1610. They also are available on the Division of Migratory Bird Management Web pages at <http://migratorybirds.fws.gov>.

**FOR FURTHER INFORMATION CONTACT:** Dr. George T. Allen, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, at 703-358-1714.

**SUPPLEMENTARY INFORMATION:** In the draft Revised Environmental Assessment, Management Plan, and Implementation Guidance (draft Revised EA) we considered six alternatives for take of nestling American peregrine falcons (*Falco peregrinus anatum*) in the western United States and Alaska. We accepted comment on the draft Revised EA for 60 days (68 FR 22727). We received 945 electronic or written comment letters on the draft Revised Environmental Assessment, Management Plan, and Implementation Guidance. Fifteen were from State or Federal agencies; 930 were from individuals and organizations. Thirteen agency responses favored allowing take of nestlings, and two responses were neutral. Of the individual and organization comments received, 6 opposed take of nestlings and 929 supported allowing take. We modified the Draft Revised Environmental Assessment, Management Plan, and Implementation Guidance to respond to

concerns expressed by agencies, organizations, and individuals.

Having reviewed the comments on the draft, our proposed action is to allow take of up to 5 percent of the American peregrine falcon nestlings produced in the States west of 100° longitude, at the discretion of each State. We believe that this conservative level of take is appropriate for a species recently removed from the List of Endangered and Threatened Wildlife and Plants, and will have no discernible effect on the American peregrine falcon population in the western United States. Based on this assessment, I have signed a Finding of No Significant Impact for take of nestling American peregrine falcons under the conditions we evaluated.

Dated: March 1, 2004.
