

leadership ability; and (3) ability to communicate.

The Federal Subsistence Board uses this information to make recommendations to the Secretary of the Interior for appointment of members to the Regional Councils. The information collected is restricted to the Regional Council member selection process and only to staff that the Federal Subsistence Board deems necessary. The information collections in this program are part of a system of records covered by the Privacy Act (5 U.S.C. 552(a)).

We invite comments concerning this proposed information collection on: (1) Whether or not the collection of information is necessary for the proper selection of Regional Council members, including whether or not the information will have practical utility; (2) the accuracy of our estimate of the burden of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and, (4) ways to minimize the burden of the collection of information on respondents.

Dated: November 4, 2005.

Hope G. Grey,

Information Collection Clearance Officer,
Fish and Wildlife Service.

Endangered and Threatened Species Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications.

SUMMARY: The following applicants have applied for scientific research permits to conduct certain activities with endangered species pursuant to section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended.

DATES: To ensure consideration, written comments must be received on or before December 23, 2005.

ADDRESSES: Written comments should be submitted to the Chief, Endangered Species Division, Ecological Services, P.O. Box 1306, Room 4102, Albuquerque, New Mexico 87103. Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act. Documents will be available for public inspection, by appointment only, during normal business hours at the U.S. Fish and

Wildlife Service, 500 Gold Ave. SW., Room 4102, Albuquerque, New Mexico. Please refer to the respective permit number for each application when submitting comments. All comments received, including names and addresses, will become part of the official administrative record and may be made available to the public.

FOR FURTHER INFORMATION CONTACT: Chief, Endangered Species Division, (505) 248-6920.

SUPPLEMENTARY INFORMATION:

Permit No. TE-110964

Applicant: John MacFarlane, Fort Worth, Texas.

Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys for golden-cheeked warbler (*Dendroica chrysoparia*) and black-capped vireo (*Vireo atricapillus*) within Texas.

Permit No. TE-112023

Applicant: Escarpment Environmental, Austin, Texas.

Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys for golden-cheeked warbler (*Dendroica chrysoparia*), and black-capped vireo (*Vireo atricapillus*) within Texas. Additionally, applicant requests authorization to survey for and collect the following species within Texas: *Batrisesodes texanus* (Coffin Cave mold beetle), *Batrisesodes ventyivi* (Helotes mold beetle), *Cicurina baronia* (Robber Baron Cave meshweaver), *Cicurina madla* (Madla's cave meshweaver), *Cicurina venii* (Braken Bat Cave meshweaver), *Cicurina vespera* (Government Canyon Bat Cave meshweaver), *Neoleptoneta microps* (Government Canyon Bat Cave spider), *Neoleptoneta myopica* (Tooth Cave spider), *Rhadine exilis* (ground beetle, no common name), *Rhadine infernalis* (ground beetle, no common name), *Rhadine persephone* (Tooth Cave ground beetle), *Tartarocreagriss texana* (Tooth Cave pseudoscorpion), *Texamaurops reddelli* (Kretschmarr Cave mold beetle), *Texella cokendolpheri* (Cokendolpher cave harvestman), *Texella reddelli* (Bee Creek Cave harvestman), and *Texella reyesi* (Bone Cave harvestman).

Permit No. TE-113511

Applicant: Jill Clausen, Tucson, Arizona.

Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys for the following species within Arizona and California: San Joaquin kit fox

(*Vulpes macrotis mutica*), lesser long-nosed bat (*Leptonycteris curasoae yerbabuena*), cactus ferruginous pygmy-owl (*Glaucidium brasilianum cactorum*), southwestern willow flycatcher (*Empidonax traillii extimus*).

Permit No. TE-815409

Applicant: New Mexico Department of Game and Fish, Santa Fe, New Mexico.

Applicant requests an amendment to an existing permit to conduct presence/absence surveys and management projects for the following species: Roswell springsnail (*Pyrgulopsis roswellensis*), Koster's springsnail (*Juturnia kosteri*), Noel's amphipod (*Gammarus desperatus*) in New Mexico, and Pecos assimineae (*Assimineae pecos*) in New Mexico and Texas. In addition, presence/absence surveys and management projects will also be conducted for Gila chub (*Gila intermedia*) within New Mexico.

Permit No. TE-676811

Applicant: U.S. Fish & Wildlife Service, Region 2, Albuquerque, New Mexico.

Applicant requests an amendment to the Regional Director's permit to add Gila chub (*Gila intermedia*) within Arizona. The listed species will be effective November 21, 2005.

Permit No. TE-039467

Applicant: USGS-BRD Arizona Cooperative Fish & Wildlife Unit, Tucson, Arizona.

Applicant requests a renewal to an existing permit to conduct presence/absence surveys and management projects for Gila chub (*Gila intermedia*) within Arizona.

Permit No. TE-821577

Applicant: Arizona Game and Fish Department, Phoenix, Arizona.

Applicant requests an amendment to an existing permit to conduct presence/absence surveys and management projects for Gila chub (*Gila intermedia*) within Arizona.

Permit No. TE-114260

Applicant: Cynthia Carey, Boulder, Colorado.

Applicant requests a new permit for research and recovery purposes to conduct laboratory management projects for Leon Springs pupfish (*Cyprinodon bovinus*), Comanche Springs pupfish (*Cyprinodon ekegans*), and Desert pupfish (*Cyprinodon macularis*) within Colorado.

Permit No. TE-114262

Applicant: Stelle & Associates, Inc.,
Tulsa, Oklahoma.

Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys for American burying beetle (*Nicrophorus americanus*) within Oklahoma.

Authority: 16 U.S.C. 1531, *et seq.*

Dated: November 4, 2005.

Bryan Arroyo,

Acting Regional Director, Region 2,
Albuquerque, New Mexico.

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service**

Draft Post-Delisting Monitoring Plan for the Douglas County Distinct Population Segment of the Columbian White-tailed Deer (*Odocoileus virginianus leucurus*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability for review and comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of the Draft Post-delisting Monitoring Plan for the Douglas County Distinct Population Segment of the Columbian White-tailed Deer (*Odocoileus virginianus leucurus*) (Monitoring Plan). The status of the Douglas County distinct population segment of the Columbian white-tailed deer will be monitored over a 5-year period through spring and fall population trend monitoring surveys, regular disease outbreak monitoring, and an annual habitat status review. We solicit review and comment on this Monitoring Plan from local, State and Federal agencies, and the public.

DATES: We will accept and consider all public comments received on or before December 23, 2005.

ADDRESSES: Copies of the Monitoring Plan are available by request from the State Supervisor, U.S. Fish and Wildlife Service, Oregon Fish and Wildlife Office, 2600 SE. 98th Avenue, Suite 100, Portland, Oregon 97266 (telephone: 503-231-6179; fax: 503-231-6195). This Monitoring Plan is also available on the World Wide Web at <http://www.fws.gov/oregonfwo/EndSpp/ESA-Actions/PDMonitorCWTDeer-05.htm>.

FOR FURTHER INFORMATION CONTACT: Cat Brown, Fish and Wildlife Biologist, at the above Portland address.

SUPPLEMENTARY INFORMATION:**Background**

The Douglas County distinct population segment of the Columbian white-tailed deer was removed from the Federal List of Threatened and Endangered Wildlife and Plants on July 24, 2003 (68 FR 43647). We determined it was recovered due to robust population growth and amelioration of threats to its survival. Section 4(g)(1) of the Endangered Species Act (Act) (16 U.S.C. 1531 *et seq.*) requires that we implement a system, in cooperation with the States, to monitor for no fewer than 5 years the status of all species that have recovered and no longer need the protection of the Act.

The Columbian white-tailed deer is the westernmost representative of 30 subspecies of white-tailed deer in North and Central America (Halls 1978; Baker 1984). The subspecies was formerly distributed throughout the bottomlands and prairie woodlands of the lower Columbia, Willamette, and Umpqua River basins in Oregon and southern Washington (Bailey 1936; Verts and Carraway 1998). It currently exists in two distinct population segments, one in Douglas County, Oregon, and the other along the lower Columbia River in Oregon and Washington. The Columbia River distinct population segment remains listed as endangered.

We propose to monitor the status of the Columbian white-tailed deer over a 5-year period in cooperation with the Oregon Department of Fish and Wildlife and the Bureau of Land Management, through spring and fall population trend monitoring surveys, regular disease outbreak monitoring, and an annual habitat status review. We will compile annual reports, in cooperation with the Oregon Department of Fish and Wildlife and the Bureau of Land Management. If data from this monitoring effort, or some other source, indicate that the Columbian white-tailed deer is experiencing significant declines in abundance or distribution, or that it requires protective status under the Act for some other reason, we can initiate listing procedures including, if appropriate, emergency listing.

In April 2004, we contacted three experts on the white-tailed deer, asking for scientific review of the draft Monitoring Plan. We received two responses to our request. We carefully considered the comments of the

reviewers and used them to improve the Monitoring Plan.

Public Comments Solicited

We will accept written comments and information during this comment period. If you wish to comment, you may submit your comments and materials concerning this Monitoring Plan by any of these methods:

1. You may submit written comments and information by mail, facsimile, or in person to the Oregon Fish and Wildlife Office at the above address (see **ADDRESSES**).

2. You may send comments by electronic mail (e-mail) to: cwtdeerplan@fws.gov. If you submit comments by e-mail, please submit them as an ASCII file and avoid the use of special characters and any form of encryption. Please also include your name and return address in your e-mail message.

Comments and materials received, as well as supporting documentation used in preparation of the Monitoring Plan, will be available for inspection, during normal business hours at the above Portland address (see **ADDRESSES**).
