Abstract: The Alaska Interest Lands Conservation Act (ANILCA) and Service regulations at 50 CFR part 100 require that persons engaged in taking fish and wildlife on public lands in Alaska apply for and obtain a permit to do so and comply with reporting provisions of that permit. We use three forms to collect information from qualified rural residents for subsistence harvest: FWS Form 3-2326 (Federal Subsistence Hunt Application, Permit, and Report), FWS Form 3-2327 (Designated Hunter Permit Application, Permit, and Report, and FWS Form 3-2328 (Federal Subsistence Fishing Application, Permit, and Report. We use the information collected to evaluate subsistence harvest success; the effectiveness of season lengths, harvest quotas, and harvest restrictions; hunting patterns and practices; and hunter use. The Federal Subsistence Board uses the harvest data, along with other information, to set future seasons and bag limits for Federal subsistence resource users. These seasons and bag limits are set to meet needs of subsistence hunters without adversely impacting the health of existing animal populations.

We also collect information from persons wishing to appeal Federal Subsistence Board decisions. Our

regulations at 50 CFR 100.20 set forth procedures for appeals, including the documentation that must be submitted. The required documentation will ensure that we have all of the information necessary to adequately reconsider the decision.

Comments: On March 2, 2006, we published in the **Federal Register** (71 FR 10698) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited public comments for 60 days, ending on May 1, 2006. We received one comment. The commenter did not address the necessity, clarity, or accuracy of the information collection, but instead provided general comments on the low levels of law enforcement and the humane treatment of fish and wildlife. We did not make any changes to our information collection based on this comment.

We again invite comments concerning this information collection on:

- (1) Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on respondents. Comments submitted in response to this notice are a matter of public record.

Dated: June 27, 2006.
