

entomology, nematology, plant pathology, veterinary medicine, the broad range of farming or agricultural practices, biodiversity issues, applicable laws and regulations relevant to invasive species policy, risk assessment, biological control of invasive species, public health/epidemiology, industry activities, international affairs or trade, tribal or state government interests, environmental education, ecosystem monitoring, natural resource database design and integration, and internet-based management of conservation issues.

Prospective nominees should also have practical experience in one or more of the following areas: Representing sectors of the national economy that are significantly threatened by biological invasions (*e.g.*, agriculture, fisheries, public utilities, recreational users, tourism, etc.); representing sectors of the national economy whose routine operations may pose risks of new or expanded biological invasions (*e.g.*, shipping, forestry, horticulture, aquaculture, pet trade, etc.); developing natural resource management plans on regional or ecosystem-level scales; addressing invasive species issues, including prevention, control and monitoring, in multiple ecosystems and on multiple scales; integrating science and the human dimension in order to create effective solutions to complex conservation issues including education, outreach, and public relations experts; coordinating diverse groups of stakeholders to resolve complex environmental issues and conflicts; and complying with NEPA and other Federal requirements for public involvement in major conservation plans. Members will be selected in order to achieve a balanced representation of viewpoints, so to effectively address invasive species issues under consideration. No member may serve on the ISAC for more than two (2) consecutive terms. All terms will be limited to three (3) years in length.

Members of the ISAC and its subcommittees serve without pay. However, while away from their homes or regular places of business in the performance of services of the ISAC, members shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the government service, as authorized by section 5703 of Title 5, United States Code.

Submitting Nominations

Nominations should be typed and should include the following:

1. A brief summary of no more than two (2) pages explaining the nominee's suitability to serve on the ISAC.
2. A resume or curriculum vitae.
3. At least two (2) letters of reference.

Nominations should be postmarked no later than April 17, 2006, to Lori Williams, National Invasive Species Council (OS/SIO/NISC), 1849 C Street, NW., Washington, DC 20240.

The Secretary of the Interior, on behalf of the other members of NISC, is actively soliciting nominations of qualified minorities, women, persons with disabilities and members of low income populations to ensure that recommendations of the ISAC take into account the needs of the diverse groups served.

Dated: February 24, 2006.

Lori C. Williams,

Executive Director, National Invasive Species Council.

Office of the Secretary

Invasive Species Advisory Committee

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of public meetings of the Invasive Species Advisory Committee.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act, notice is hereby given of meetings of the Invasive Species Advisory Committee. The purpose of the Advisory Committee is to provide advice to the National Invasive Species Council, as authorized by Executive Order 13112, on a broad array of issues related to preventing the introduction of invasive species and providing for their control and minimizing the economic, ecological, and human health impacts that invasive species cause. The Council is Co-chaired by the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Commerce. The duty of the Council is to provide national leadership regarding invasive species issues. The purpose of a meeting on April 27-28, 2006 is to convene the full Advisory Committee and to discuss implementation of action items outlined in the National Invasive Species Management Plan, which was finalized on January 18, 2001.

DATES: Meeting of Invasive Species Advisory Committee: Thursday, April 27, 2006, through Friday, April 28,

2006; beginning at approximately 8 a.m., and ending at approximately 5 p.m. each day.

ADDRESSES: Radisson Old Town Alexandria Hotel, 901 North Fairfax Street, Alexandria, VA 22314. Meeting will be held all three days in the Presidential Ballroom.

FOR FURTHER INFORMATION CONTACT:

Kelsey Brantley, National Invasive Species Council Program Analyst; Phone: (202) 513-7243; Fax: (202) 371-1751.

Dated: February 24, 2006.

Lori C. Williams,

Executive Director, National Invasive Species Council.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection Renewal To Be Sent to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act; OMB Control Number 1018-0075; Federal Subsistence Regulations and Associated Forms, 50 CFR Part 100

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service) plan to request that OMB renew approval for our information collection associated with the Federal subsistence regulations. The current OMB control number for this information collection is 1018-0075, which expires August 31, 2006. We will request that OMB renew approval of this information collection for a 3-year term.

DATES: You must submit comments on or before May 1, 2006.

ADDRESSES: Send your comments on the information collection to Hope Grey, Information Collection Clearance Officer, Fish and Wildlife Service, MS 222-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); hope_grey@fws.gov (e-mail); or (703) 358-2269 (fax).

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection requirement, explanatory information, or related forms, contact Hope Grey at the addresses above or by telephone at (703) 358-2482.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members

of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). Federal agencies may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The Alaska National Interest Lands Conservation Act (ANILCA) and Fish and Wildlife Service regulations at 50 CFR 100 require that persons engaged in taking fish and wildlife on public lands in Alaska report their take to the Federal Subsistence Board (Board) and that rural residents who want to participate in special hunts or fisheries must apply for and obtain a special permit to do so. We use forms 7FS-1, 7FS-2, and 7FS-3 to collect information for the permitting process. When we ask OMB to renew this information collection, we will assign Fish and Wildlife Service form numbers to these forms. We will ask OMB to approve FWS Form 3-2326 (Federal Subsistence Hunt Application, Permit, and Report), FWS Form 3-2327 (Designated Hunter Permit Application, Permit, and Report), and FWS Form 3-2328 (Federal Subsistence Fishing Application, Permit, and Report). The information that we will collect on these proposed forms is identical to that collected on the current OMB-approved forms.

Title: Federal Subsistence Hunt Application, Permit, and Report.

OMB Control Number: 1018-0075.

Form Number: FWS Form 3-2326 (supersedes form 7FS-1).

Frequency of Collection: On Occasion.

Description of Respondents: Federally defined rural residents.

This form allows Federal subsistence users to participate in special hunts that are not available to the general public, but are provided for by Title VIII of ANILCA. The application requires information necessary to identify the applicant (name, date of birth, address, telephone number, and Alaska hunting license number). The Board uses the harvest information that the permittee provides in the hunt report (number of days hunted, method of getting to hunt area, drainages hunted and locations, date animals were taken, and sex of animals taken) to evaluate subsistence harvest success; the effectiveness of season lengths, harvest quotas, and harvest restrictions; hunting patterns and practices; and hunter use. The Board uses this information to set future seasons and harvest limits for Federal subsistence resource users. These seasons and harvest limits are set to meet the needs of subsistence hunters without adversely impacting the health of existing wildlife populations.

Title: Designated Hunter Permit Application, Permit, and Report.

OMB Control Number: 1018-0075.

Form Number: FWS Form 3-2327 (supersedes form 7FS-2).

Frequency of Collection: On Occasion.

Description of Respondents: Federally defined rural residents.

The Designated Hunter Application, Permit, and Report form allows qualified subsistence users to harvest wildlife for other qualified subsistence users who have a Federal Subsistence Hunt permit and report the harvest of multiple animals by a single hunter who is acting for others. We collect information on the application to identify the applicant (name, date of birth, address, telephone number, and

Alaska hunting license number). The permit and hunt report include the names of persons for whom the permittee hunted, harvest ticket/permit number, unit, specific location, and number of male and female animals harvested.

Title: Federal Subsistence Fishing Application, Permit, and Report.

OMB Control Number: 1018-0075.

Form Number: FWS Form 3-2328 (supersedes form 7FS-3).

Frequency of Collection: On Occasion.

Description of Respondents: Federally defined rural residents.

This form allows qualified subsistence users to harvest fish for themselves or for others. This form also allows Federal subsistence users to participate in special fishing opportunities that are not available to the general public, but are provided for by Title VIII of ANILCA. The Board needs information on both the fisherman (name, address, telephone number, date of birth, and Alaska driver's license number or other identification) and the qualified subsistence users fished for (name and date of birth) to identify the individuals and ensure they are qualified subsistence users. The report includes information on dates fished, water body, gear used, and the fish harvested. Once the Board evaluates harvest information, it uses that data, along with other information, to set future seasons and harvest limits for Federal subsistence resource users. These seasons and harvest limits are set to meet the needs of subsistence fishermen without adversely impacting the health of existing fish populations.

Form No./activity	No. of respondents	Annual No. of responses	Avg burden hour per response (minutes)	Total annual burden hrs
3-2326—Application	5,000	5,000	10	833.3
3-2326—Report	5,000	5,000	5	416.6
3-2327—Application	450	450	10	75.0
3-2327—Permit	450	450	5	37.5
3-2327—Report	450	450	5	37.5
3-2328—Application	250	250	10	41.6
3-2328—Report	250	250	20	83.3
Total	11,850	11,850	1,524.8

We invite comments concerning this proposed information collection on: (1) Whether or not the collection of information is necessary, including whether or not the information will have practical utility; (2) the accuracy of our estimate of the burden for this collection of information; (3) ways to

enhance the quality, utility, and clarity of the information to be collected; and, (4) ways to minimize the burden of the collection of information on respondents.

Dated: February 3, 2006.

Hope G. Grey,

*Information Collection Clearance Officer,
Fish and Wildlife Service.*
