

to add OMB Control No. 1615-0052 in the subject box.

During this 60-day period USCIS will be evaluating whether to revise the Form N-400. Should USCIS decide to revise the Form N-400 it will advise the public when it publishes the 30-day notice in the **Federal Register** in accordance with the Paperwork Reduction Act. The public will then have 30-days to comment on any revisions to the Form N-400.

Written comments and suggestions from the public and affected agencies concerning the collection of information should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of an existing information collection.

(2) *Title of the Form/Collection:* Application for Naturalization.

(3) *Agency form number, if any, and the applicable component of the Department of Homeland Security sponsoring the collection:* Form N-400; U.S. Citizenship and Immigration Services.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. USCIS uses the information on this form to determine an applicant's eligibility for naturalization.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 700,000 responses at 6 hours and 8 minutes (6.13 hours) per response.

(6) *An estimate of the total public burden (in hours) associated with the*

collection: 4,291,000 annual burden hours.

If you have additional comments, suggestions, or need a copy of the information collection instrument, please visit: <http://www.regulations.gov/search/index.jsp>.

We may also be contacted at: USCIS, Regulatory Management Division, 111 Massachusetts Avenue, NW., Suite 3008, Washington, DC 20529, telephone number 202-272-8377.

Dated: May 13, 2008.

Stephen Tarragon,

Acting Chief, Regulatory Management Division, U.S. Citizenship and Immigration Services, Department of Homeland Security.

BILLING CODE 9111-97-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5186-N-20]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

DATES: *Effective Date: May 16, 2008.*

FOR FURTHER INFORMATION CONTACT: Kathy Ezzell, Department of Housing and Urban Development, 451 Seventh Street, SW., Room 7262, Washington, DC 20410; telephone (202) 708-1234; TTY number for the hearing- and speech-impaired (202) 708-2565, (these telephone numbers are not toll-free), or call the toll-free Title V information line at 800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: May 8, 2008.

Mark R. Johnston,

Deputy Assistant Secretary for Special Needs.

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R2-ES-2008-N0116; 21012-11130000-C2]

Draft Bexar County Karst Invertebrates Recovery Plan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of the Draft Bexar County Karst Invertebrates Recovery Plan. We are soliciting review and comment from the public on this draft recovery plan.

DATES: To ensure consideration, we must receive comments by July 15, 2008.

ADDRESSES: You may obtain copies of the draft recovery plan from Cyndee Watson, U.S. Fish and Wildlife Service, 10711 Burnet Road, Suite #200, Austin, Texas, (512-490-0057 ext. 223) or download it from the internet at <http://www.fws.gov/southwest/es/Library/> (type "Bexar County" in the document title search field).

FOR FURTHER INFORMATION CONTACT: Adam Zerrenner, Field Supervisor, U.S. Fish and Wildlife Service, 10711 Burnet Road Suite #200, Austin, Texas 78758; telephone 512-490-0057 ext 249.

SUPPLEMENTARY INFORMATION:

Background

The Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1531 *et seq.*) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Service considers all information provided during a public comment period prior to approval of each new recovery plan. The Service and others take these comments into account in the course of implementing recovery plans.

Nine Bexar County karst invertebrates were listed as endangered species on December 26, 2000 (65 FR 81419 81433). These invertebrates are troglobites, spending their entire lives

underground. They inhabit caves and mesocaverns (humanly impassable voids in karst limestone) in Bexar County, Texas. They are characterized by small or absent eyes and pale coloration. These species are *Rhadine exilis*, *Rhadine infernalis*, *Batrises venyivi*, *Texella cokendolpheri*, *Neoleptoneta microps*, *Cicurina baroni*, *Cicurina madla*, *Cicurina venii*, and *Cicurina vespera*.

The draft recovery plan includes scientific information about the species and provides objectives and actions needed to recover the Bexar County karst invertebrates and to ultimately remove them from the list of threatened and endangered species. Recovery actions designed to achieve these objectives include reducing threats to the species by securing an adequate quantity and quality of habitat. This includes selecting caves or cave clusters that represent the range of the species and potential genetic diversity for the nine species, then preserving these karst habitats by preserving their drainage basins and surface communities upon which they rely. Because many aspects of the population dynamics and habitat requirements of the species are poorly understood, recovery is also dependant on incorporating research findings into adaptive management actions. Because four of these species are known to occur in only one cave, full recovery may not be possible for these species.

Public Comments

To comment on the plan, please mail comments to the Field Supervisor, Attention Draft Bexar County Karst Invertebrate Recovery Plan, U.S. Fish and Wildlife Service, Austin Ecological Services Field Office, 10711 Burnet Road, Suite 200, Austin, Texas 78758. You may also submit comments electronically to BexarKlrecplan@fws.gov or fax to 512-490-0974.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While we will try to honor your written request to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: April 24, 2008.

Christopher T. Jones,

Acting Regional Director, Region 2.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R8-ES-2008-N0082; 1112-0000-81420-F2]

East Bay Municipal Utility District Habitat Conservation Plan, East Bay Watershed Lands, Alameda and Contra Costa Counties, CA

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability: Proposed low-effect habitat conservation plan; request for comment.

SUMMARY: The East Bay Municipal Utility District, Oakland (EBMUD or applicant) has applied to the Fish and Wildlife Service (Service) for a 30-year incidental take permit for seven species pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act) (16 U.S.C. 1531 *et seq.*). The application addresses the potential for "take" of two listed animals, two listed plants, and three currently unlisted species. The applicant would implement a conservation program to minimize and mitigate the project activities, as described in the East Bay Municipal Utility District Low-Effect East Bay Habitat Conservation Plan (plan). We request comments on the applicant's application and plan, and the preliminary determination that the plan qualifies as a "low-effect" habitat conservation plan, eligible for a Categorical Exclusion under the National Environmental Policy Act of 1969, as amended (NEPA). We discuss our basis for this determination in our Environmental Action Statement (EAS), which is also available for public review.

DATES: We must receive written comments on or before June 16, 2008.

ADDRESSES: Please address written comments to Sheila Larsen, Conservation Planning Branch, Fish and Wildlife Service, Sacramento Fish and Wildlife Office, 2800 Cottage Way, W-2605, Sacramento, CA 95825. Alternatively, you may send comments by facsimile to (916) 414-6713.

FOR FURTHER INFORMATION CONTACT: Sheila Larsen, or Eric Tattersall, Branch Chief, Conservation Planning Branch, at the address shown above or at 916-414-6600 (telephone).

SUPPLEMENTARY INFORMATION:

Availability of Documents

Copies of the permit application, plan, and EAS can be obtained from the individuals named above (see **FOR FURTHER INFORMATION CONTACT**). Copies of these documents are available for public inspection, by appointment, during regular business hours, at the Sacramento Fish and Wildlife Office (see **ADDRESSES**). Documents also are available for public inspection, during regular business hours, at the East Bay Municipal Utility District, Orinda, Natural Resources Department, 500 San Pablo Dam Road, Orinda, CA 94563.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Background Information

Section 9 of the Act (16 U.S.C. 1531 *et seq.*) and its implementing Federal regulations prohibit the "take" of fish or wildlife species listed as endangered or threatened. "Take" is defined under the Act to include the following activities: To harass, harm, pursue, hunt, shoot, wound, kill, trap, capture or collect listed animal species, or to attempt to engage in such conduct. However, under section 10(a)(1)(B) of the Act, we may issue permits to authorize incidental take of listed species. "Incidental take" is defined by the Act as take that is incidental to, and not the purpose of, carrying out an otherwise lawful activity. Regulations governing incidental take permits for endangered and threatened species, respectively, are in the Code of Federal Regulations at 50 CFR 17.22 and 50 CFR 17.32.

Although take of listed plant species is not prohibited under the Act, and therefore cannot be authorized under an incidental take permit, plant species may be included on a permit in recognition of the conservation benefits provided to them under a habitat conservation plan. All species included on the incidental take permit would receive assurances under the Services' "No Surprises" regulations (50 CFR 17.22(b)(5) and 17.32(b)(5)).

The applicant seeks an incident take permit for covered activities within 28,200 acres of watershed lands owned
