

cannot guarantee that we will be able to do so.

The Applicant plans to implement improvements that are expected to enhance and maintain Page springsnail habitat, create additional habitat, reestablish populations of the species, and enroll private lands of willing landowners under certificates of inclusion to conduct similar measures, in Yavapai, Arizona. If conservation actions identified in the CCAA were implemented across the entire range of the species, we expect the need to list the Page springsnail would be ameliorated.

The draft CCAA and permit application are eligible for categorical exclusion under the National Environmental Policy Act of 1969, based upon completion of a checklist.

Section 9 of the Act prohibits the "taking" of threatened or endangered species. However, the Service, under limited circumstances, may issue permits to take threatened and endangered wildlife species incidental

to, and not the purpose of, otherwise lawful activities.

We provide this notice under section 10(c) of the Act (16 U.S.C. 1531, *et seq.*) and its implementing regulations (50 CFR 17.22), and the National Environmental Policy Act (42 U.S.C. 4371, *et seq.*) and its implementing regulations (40 CFR 1506.6).

Christopher Jones,
Acting Regional Director, Region 2,
Albuquerque, New Mexico.
