

respondents to report on the envelope the date and location of harvest for each bird. We combine the results of this survey with the harvest estimates obtained from the Migratory Bird Hunter Survey to provide species-specific national harvest estimates.

The combined results of these surveys enable us to evaluate the effects of season length, season dates, and bag limits on the harvest of each species, and thus help us determine appropriate hunting regulations.

The Sandhill Crane Harvest Survey is an annual questionnaire survey of people who obtained a sandhill crane

hunting permit. At the end of the hunting season, we randomly select a sample of permit holders and ask them to report the date, location, and number of birds harvested for each of their sandhill crane hunts. Their responses provide estimates of the temporal and geographic distribution of the harvest as well as the average harvest per hunter, which, combined with the total number of permits issued, enables us to estimate the total harvest of sandhill cranes. Based on information from this survey, we adjust hunting regulations as needed.

II. Data

OMB Control Number: 1018-0023.

Title: Migratory Bird Surveys.

Service Form Number(s): 3-165, 3-165A, 3-165B, 3-165C, 3-165D, 3-165E and 3-2056J-N.

Type of Request: Extension of a currently approved collection.

Affected Public: States and migratory game bird hunters.

Respondent's Obligation: Voluntary.

Frequency of Collection: Annually or on occasion.

Activity	Number of annual respondents	Number of annual responses	Completion time per response	Annual burden hours
Migratory Bird Harvest Information Program	49	686	185 hours	126,910
Migratory Bird Hunter Survey	84,200	84,200	4.3 minutes	6,034
Parts Collection Survey	27,300	140,600	4.5 minutes	10,545
Sandhill Crane Harvest Survey	8,300	8,300	3.5 minutes	484
Totals	119,849	233,786	143,973

III. Request for Comments

We invite comments concerning this IC on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this IC. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: June 11, 2010.

Hope Grey,
Information Collection Clearance Officer,
Fish and Wildlife Service.

Emergency Exemption: Issuance of Permit for Endangered Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of emergency issuance of permit for endangered species.

SUMMARY: The following permit was issued.

ADDRESSES: Documents and other information submitted for this application are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a request for a copy of such documents to: Brenda Tapia, Division of Management Authority, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 212, Arlington, VA 22203; fax (703) 358-2280; or e-mail DMAFR@fws.gov.

FOR FURTHER INFORMATION CONTACT: Brenda Tapia, (703) 358-2104 (telephone); (703) 358-2280 (fax); DMAFR@fws.gov (e-mail).

SUPPLEMENTARY INFORMATION: On May 28, 2010, the U.S. Fish and Wildlife Service (Service) issued a permit (PRT-14281A) to the Rare Species Conservatory Foundation, Loxahatchee, Florida, to import one captive-hatched imperial parrot (*Amazona imperialis*) for the purpose of enhancement of the survival of the species. This action was

authorized under Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*). The Service determined that an emergency affecting the health and life of the imperial parrot existed, and that no reasonable alternative was available to the applicant for the following reasons:

The Rare Species Conservatory Foundation requested a permit to import the above-mentioned imperial parrot chick captive-hatched on May 6, 2010, at the Dominican Government Aviary (Parrot Conservation and Research Centre), Botanical Gardens, in Roseau, Dominica, for emergency and ongoing health evaluation purposes. This juvenile is the first of its species hatched in captivity anywhere in the world and was being parent-reared at the aviary until it was abandoned by its parents and subsequently rescued by the Centre. This import is necessary to save the bird's life and provide intensive veterinary and husbandry care not available in Dominica.

Dated: June 11, 2010.

Brenda Tapia,
Program Analyst, Branch of Permits, Division of Management Authority.
