

we will assess the projected revenues and expense of the business activities we will authorize and estimate a fair return to the new concessioner taking into account applicable industry norms. As part of this assessment, we will calculate the cost to the new concessioner of acquiring the existing LSI (and any required new LSI improvements). The minimum franchise fee, accordingly, will reflect the financial consequences of the proposed alternative formula such that the estimated reasonable opportunity for profit to the new concessioner would be projected to be the same whether the new contract included the standard formula or the proposed alternative formula. The proposed alternative formula will not lower the projected returns to the new concessioner but will reduce the speculative nature of LSI value under the standard formula.

Please note that, in the interest of time, the NPS may issue a prospectus for the new contract in the near future that incorporates the proposed alternative formula. If consideration of public comments in response to this notice causes us to alter the proposed alternative formula, we will amend the prospectus accordingly before the deadline for submission of proposals.

Before including your address, phone number, e-mail address, or other identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Deputy Director, Operations.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we finalize the CCP process for the Desert NWR Complex (Ash Meadows, Desert, Moapa Valley and Pahrnatag NWRs). The CCP will guide us in managing and administering the four wildlife refuges for the next 15 years. We started this process in a **Federal Register** notice (67 FR 54229, August 21, 2002). We released the draft CCP/EIS to the public, announcing and requesting comments in a notice of availability in the **Federal Register** (73 FR 39979) on July 11, 2008. The public review period lasted 60 days. We announced the availability of the final CCP/EIS in the **Federal Register** (74 FR 41928) on August 19, 2009.

Ash Meadows NWR was established in 1984 under the authority of the Endangered Species Act of 1973, as amended. It comprises 23,000 acres of spring-fed wetlands, mesquite bosques, and desert uplands that provide habitat for at least 24 plants and animal species found nowhere else in the world. The Wildlife Refuge is located 90 miles northwest of Las Vegas and 30 miles west of Pahrump.

Desert NWR was originally established in 1936 by Executive Order No. 7373 and subsequently modified by Public Land Order 4079, for the protection, enhancement and maintenance of wildlife resources including bighorn sheep. Located just north of Las Vegas, Nevada, the 1.6 million acre Wildlife Refuge is the largest in the lower 48 States.

The Moapa Valley NWR was established in 1979 under the authority of the Endangered Species Act of 1973, as amended, to secure habitat for the endangered Moapa dace. The Wildlife Refuge is located on 116 acres in northeastern Clark County. Due to its small size, fragile habitats, on-going habitat restoration work, and unsafe structures, the Wildlife Refuge is currently closed to the general public.

The Pahrnatag NWR was established in 1963, under the authority of the Migratory Bird Conservation Act, as amended, to protect habitat for migrating birds in the Pahrnatag Valley. The 5,382 acre Wildlife Refuge consists of marshes, meadows, lakes, and upland desert habitat. It provides nesting, resting, and feeding areas for waterfowl, shorebirds, wading birds, and song birds including the endangered southwestern willow flycatcher.

In accordance with National Environmental Policy Act (NEPA) (40 CFR 1506.6(b)) requirements, this notice announces the availability of the ROD for the final CCP/EIS for the Desert NWR Complex. We completed a thorough analysis of the environmental, social, and economic considerations in the final CCP/EIS. The ROD documents our selection of Alternative C, for Ash Meadows, Desert, and Moapa Valley NWRs and Alternative D for Pahrnatag NWR.

Background

The National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd-668ee) (Improvement Act), which amended the National Wildlife Refuge System Administration Act of 1966, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year

plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System (NWRs), consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Improvement Act.

CCP Alternatives and Selected Alternative

Both our draft and final CCP/EIS identified several major issues. To address those issues, we developed and evaluated three alternatives for managing Ash Meadows and Moapa Valley NWRs and four alternatives for managing Desert and Pahranaagat NWRs. These alternatives are outlined in the final CCP/EIS Summary document available at <http://www.fws.gov/desertcomplex/ccp.htm>.

Our decision is to adopt Alternative C for Ash Meadows, Desert, and Moapa Valley NWRs and Alternative D for Pahranaagat NWR, as described in the ROD. The ROD details the basis of our decision, which we made after considering the following: the impacts identified in Chapter 4 of the draft and final CCP/EIS; the results of public and other agency comments; how well the alternative addresses the relevant issues, concerns, and opportunities identified during the planning process; and other relevant factors, including fulfilling the purposes for which the wildlife refuges were established, contributing to the mission and goals of the NWRs, and statutory and regulatory guidance. We have determined that Alternative C for Ash Meadows, Desert, and Moapa Valley NWRs and Alternative D for Pahranaagat NWR include the suite of activities that best achieve the stated purpose and need for action and the goals for each wildlife refuge presented in the final CCP/EIS Chapter 1. These alternatives were selected for implementation because they provide the greatest number of opportunities for the wildlife refuges to make a significant contribution to the conservation of fish, wildlife, and habitat needs in the region, balanced with opportunities for high-quality wildlife-dependant recreation.

Dated: January 26, 2010.

Temporary Concession Contract for Lake Mead National Recreation Area, AZ/NV

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of intention to award temporary concession contract for Lake Mead National Recreation Area.

SUMMARY: Pursuant to 36 CFR 51.24, public notice is hereby given that the National Park Service intends to award a temporary concession contract for the conduct of certain visitor services within Lake Mead National Recreation Area, Arizona and Nevada for a term not to exceed 3 years. The visitor services include marina and boat rentals, overnight accommodations, food and beverage, retail, fuel, and short term trailer villages. This action is necessary to avoid interruption of visitor services.

DATES: The term of the temporary concession contract will commence (if awarded) no earlier than February 1, 2010.

SUPPLEMENTARY INFORMATION: The temporary concession contract is intended to be awarded to Forever Resorts, a qualified person (as defined in 36 CFR 51.3). The existing concessioner, Seven Resorts, Inc., has informed the National Park Service (NPS) that it will be concluding its operations at Echo Bay under CC-LAME010-71 within Lake Mead National Recreation Area effective January 31, 2010.

The National Park Service has determined that a temporary concession contract is necessary in order to avoid interruption of visitor services and has taken all reasonable and appropriate steps to consider alternatives to avoid an interruption of visitor services.

This action is issued pursuant to 36 CFR 51.24(a). This is not a request for proposals.

January 5, 2010.

Jonathan B. Jarvis,

Director, National Park Service.
