The coal resource to be offered consists of all reserves recoverable by surface mining methods in the following-described lands located approximately 8 miles south-southeast of Gillette, Wyoming and east of State Highway 59.

T. 48 N., R. 71 W., 6th Principal Meridian

Sec. 7, lots 12 and 19;
Sec. 8, lot 10;
Sec. 17, lots 1 through 12 inclusive and lots 15 and 16;
Sec. 18, lots 5, 12, and 13;
Sec. 20, lots 1, 2, and 8; and
Sec. 21, lots 11 and 12.

Containing 1,023.99 acres, more or less, in Campbell County, Wyoming.

The LBA tract is adjacent to Federal, private, and State of Wyoming leases along the western lease boundary of the Caballo mine and to the Belle Ayr North LBA along the south. It is adjacent to additional unleased Federal coal to the west. The tract is crossed by Bishop Road along its southern boundary.

All of the acreage offered has been determined to be suitable for mining. Features such as Bishop Road, utilities, and pipelines can be moved to permit coal recovery. In addition, several producing coal bed natural gas wells have been drilled on the tract. The estimate of the bonus value of the coal lease will include consideration of the future production from these wells. An economic analysis of the future income stream from coal mining will consider reasonable compensation to the gas lessee for lost production of the natural gas when the wells are bought out by the coal lessee. The surface estate of the tract is owned by Alpha Coal West, Inc., as well as private individuals and entities.

The tract contains surface mineable coal reserves in the Wyodak-Anderson
