RIN 1018-AX48

General Provisions; Revised List of Migratory Birds

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: We, the U.S. Fish and Wildlife Service, propose to revise the List of Migratory Birds by both adding and removing species. Reasons for the changes to the list include adding species based on new taxonomy and new evidence of occurrence in the United States or U.S. territories, removing species no longer known to occur within the United States, and changing names to conform to accepted use. The net increase of 19 species (23 added and 4 removed) brings the total number of species protected by the Migratory Bird Treaty Act (MBTA) to 1,026. We regulate most aspects of the taking, possession, transportation, sale, purchase, barter, exportation, and importation of migratory birds. An accurate and up-to-date list of species protected by the MBTA is essential for public notification and regulatory purposes.

DATES: To ensure consideration of your comments, they must be received or postmarked on or before July 25, 2011.

ADDRESSES: You may submit comments by either one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS-R9-MB-2010-0088.
- *U.S. Mail or hand delivery:* Public Comments Processing, Attn: FWS-R9-MB-2010-0088; Division of Policy and Directives Management; U.S. Fish and Wildlife Service; 4401 North Fairfax Drive, Suite 222; Arlington, VA 22203-1610.

We will not accept e-mail or faxes. We will post all comments on <http://www.regulations.gov>. This generally means that we will post any personal information that you provide. See the Public Comments section below for more information.

SUPPLEMENTARY INFORMATION:**Background**

What statutory authority does the service have for this rulemaking?

We have statutory authority and responsibility for enforcing the Migratory Bird Treaty Act (MBTA) (16 U.S.C. 703-712), the Fish and Wildlife Improvement Act of 1978 (16 U.S.C. 742l), and the Fish and Wildlife Act of 1956 (16 U.S.C. 742a-j). The MBTA implements Conventions between the United States and four neighboring countries for the protection of migratory birds, as follows:

(1) *Canada:* Convention between the United States and Great Britain [on behalf of Canada] for the Protection of Migratory Birds, August 16, 1916, 39 Stat. 1702 (T.S. No. 628);

(2) *Mexico:* Convention between the United States and Mexico for the Protection of Migratory Birds and Game Mammals, February 7, 1936, 50 Stat. 1311 (T.S. No. 912);

(3) *Japan:* Convention between the Government of the United States of America and the Government of Japan for the Protection of Migratory Birds and Birds in Danger of Extinction, and Their Environment, March 4, 1972, 25 U.S.T. 3329 (T.I.A.S. No. 7990); and

(4) *Russia:* Convention between the United States of America and the Union of Soviet Socialist Republics Concerning the Conservation of Migratory Birds and Their Environment (Russia), November 19, 1976, 29 U.S.T. 4647 (T.I.A.S. No. 9073).

What is the purpose of this rulemaking?

Our purpose is to inform the public of the species protected by the MBTA and its implementing regulations. These regulations are found in Title 50, Code of Federal Regulations (CFR), Parts 10, 20, and 21. We regulate most aspects of the taking, possession, transportation, sale, purchase, barter, exportation, and importation of migratory birds. An accurate and up-to-date list of species protected by the MBTA is essential for regulatory purposes.

Why is this amendment of the list of migratory birds necessary?

The amendment is needed to: (1) Add five species previously overlooked from a family protected under the MBTA; (2) correct the spelling of five species on the alphabetized list; (3) correct the spelling of two species on the taxonomic list; (4) add 11 species based on new distributional records documenting their natural occurrence in the United States since April 2007; (5) add one species from a family now protected under the MBTA as a result of taxonomic changes; (6) add six species

newly recognized as a result of recent taxonomic changes; (7) remove four species not known to occur within the boundaries of the United States or its territories as a result of recent taxonomic changes; (8) change the common (English) names of nine species to conform with accepted use; and (9) change the scientific names of 36 species to conform to accepted use.

The List of Migratory Birds (50 CFR 10.13) was last revised on March 1, 2010 (75 FR 9282). These amendments were necessitated by three published supplements to the 7th (1998) edition of the American Ornithologists' Union's (AOU's) *Check-list of North American Birds* (AOU 2008, AOU 2009, and AOU 2010).

In addition, we propose to correct the legal authorities citations at 50 CFR 10.13(a).

We also would make a small change to a definition in 50 CFR 21.3. We propose to update the definition of "raptor" to also include the order Accipitriformes to correspond to the proposed changes in the List of Migratory Birds.

What scientific authorities are used to amend the list of migratory birds?

Although bird names (common and scientific) are relatively stable, staying current with standardized use is necessary to avoid confusion in communications. In making our determinations, we primarily relied on the American Ornithologists' Union's *Check-list of North American Birds* (AOU 1998), as amended (AOU 1999, 2000, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, and 2010), on matters of taxonomy, nomenclature, and the sequence of species and other higher taxonomic categories (orders, families, subfamilies) for species that occur in North America. The AOU Checklist contains all bird species that have occurred in North America from the Arctic through Panama, including the West Indies and the Hawaiian Islands, and includes distributional information for each species, which specifies whether the species is known to occur in the United States. For the 39 species that occur outside the geographic area covered by the *Check-list* (28 that occur in the Pacific island territories and 11 listed in the Japanese and/or Russian conventions that have not occurred in the AOU area), we relied primarily on Clements (2007). Although we primarily rely on the above checklists, when informed taxonomic opinion is inconsistent or controversial, we evaluate available published and unpublished information and come to

our own conclusion regarding the validity of taxa.

What criteria are used to identify individual species protected by the MBTA?

A species qualifies for protection under the MBTA by meeting one or more of the following four criteria:

(1) It is covered by the Canadian Convention of 1916, as amended in 1996, by virtue of meeting the following three criteria: (a) It belongs to a family or group of species named in the Canadian Convention, as amended; (b) specimens, photographs, videotape recordings, or audiotape recordings provide convincing evidence of natural occurrence in the United States or its territories; and (c) the documentation of such records has been recognized by the AOU or other competent scientific authorities.

(2) It is covered by the Mexican Convention of 1936, as amended in 1972, by virtue of meeting the following three criteria: (a) It belongs to a family or group of species named in the Mexican Convention, as amended; (b) specimens, photographs, videotape recordings, or audiotape recordings provide convincing evidence of natural occurrence in the United States or its territories; and (c) the documentation of such records has been recognized by the AOU or other competent scientific authorities.

(3) It is listed in the annex to the Japanese Convention of 1972, as amended.

(4) It is listed in the appendix to the Russian Convention of 1976.

In accordance with the Migratory Bird Treaty Reform Act of 2004 (MBTRA) (Pub. L. 108-447, 118 Stat. 2809, 3071-72), we include all species native to the United States or its territories, which are those that occur as a result of natural biological or ecological processes (see 70 FR 12710, March 15, 2005). We do not include nonnative species whose occurrences in the United States are solely the result of intentional or unintentional human-assisted introduction(s).

How do the proposed changes affect the list of migratory birds?

Several taxonomic changes were made at the Order and Family level by the AOU since publication of the last list. These changes affect the inclusion and taxonomic order of species on this list. Specifically, the Orders Phaethontiformes and Suliformes were split from the Pelecaniformes. Phaethontiformes now includes the Family Phaethontidae (tropicbirds); Suliformes now includes the Families

Fregatidae (frigatebirds), Sulidae (boobys), Phalacrocoracidae (cormorants), and Anhingidae (anhingas). In addition, the Order Accipitriformes was split from the Falconiformes and now include the Families Cathartidae (vultures), Pandionidae (Osprey), and Accipitridae (hawks and eagles). At the Family level, the Ardeidae (herons and egrets) and Threskiornithidae (ibis and spoonbills) were moved from the Ciconiiformes to the Pelecaniformes Order, the Pandionidae (Osprey) were separated from the Accipitridae (hawks and eagles), and the Stercorariidae (jaegers and skuas) were separated from the Laridae (gulls, terns, and skimmers). The Polioptilidae (gnatcatchers), Phylloscopidae (*Phylloscopus* warblers), Acrocephalidae (*Acrocephalus* warblers), and Megaluridae (*Locustella* warblers) were separated from the Sylviidae, and the Calcariidae (longspurs and snow buntings) were separated from the Emberizidae (buntings and sparrows). The euphonias were put into their own Subfamily (Euphoniinae) and moved from the Thraupidae to the Fringillidae Family. All species within these newly created families continue to be protected under the MBTA. In addition, the Wrentit was moved from the Timaliidae (babblers) to the Sylviidae and is now in a family protected by the MBTA.

The amendments (23 additions, 4 removals, and 51 name changes) affect a grand total of 78 species and result in a net addition of 19 species to the List of Migratory Birds, increasing the species total from 1,007 to 1,026. Of the 23 species that we add to the list, 6 were previously covered under the MBTA as subspecies of listed species. These amendments can be logically arranged in the following 9 categories:

(1) Add five species from the family Muscicapidae, a family specifically listed in the 1996 protocol amending the 1916 convention with Canada. The omission of these species on the previous list was an oversight. All are considered accidental or casual in Alaska. The species and relevant AOU publication(s) are:

Mugimaki Flycatcher, *Ficedula mugimaki* (AOU 1987, 1997, 1998);
Taiga Flycatcher, *Ficedula albicilla* (AOU 1982, 1983, 1998, 2006);
Dark-sided Flycatcher, *Muscicapa sibirica* (AOU 1982, 1983, 1998, 2004);
Asian Brown Flycatcher, *Muscicapa dauurica* (AOU 1987, 1989, 1998); and
Spotted Flycatcher, *Muscicapa striata* (AOU 2004).

(2) Correct the spelling of five scientific names on the alphabetized list:

Nesofregata fuliginosa (Polynesian Storm-Petrel), becomes *Nesofregatta fuliginosa*;

Thalasseus maximus (Royal Tern), becomes *Thalasseus maximus*;

Thalasseus sandvicensis (Sandwich Tern), becomes *Thalasseus sandvicensis*;

Phylloscopus sialatrix (Wood Warbler), becomes *Phylloscopus sibilatrix*; and

Locustella lanceolata (Lanceolated Warbler), becomes *Locustella lanceolata*.

(3) Correct the spelling of two scientific names on the taxonomic list:

Nesofregatta fuiginosa (Polynesian Storm-Petrel), becomes *Nesofregatta fuliginosa*; and

Tiaris olivacea (Yellow-faced Grassquit), becomes *Tiaris olivaceus*.

(4) Add 11 species based on review and acceptance by AOU (since April 2007) of new distributional records documenting their occurrence in the United States, Puerto Rico, or the U.S. Virgin Islands. These species belong to families covered by the Canadian and/or Mexican Conventions, and all are considered to be of accidental or casual occurrence. For each species, we list the State in which it has been recorded plus the relevant publication:

Parkinson's Petrel, *Procellaria parkinsoni*—California (AOU 2008);

Swinhoe's Storm-Petrel, *Oceanodroma monorhis*—North Carolina (AOU 2010);

Swallow-tailed Gull, *Creagrurus furcatus*—California (AOU 2008);

Brown Hawk-Owl, *Ninox scutulata*—Alaska (AOU 2009);

White-crested Elaenia, *Elaenia albiceps*—Texas (AOU 2010);

Crowned Slaty Flycatcher, *Empidonomus aurantioatrocristatus*—Louisiana (AOU 2010);

Sinaloa Wren, *Thryothorus sinaloa*—Arizona (AOU 2010);

Pallas's Leaf-Warbler, *Phylloscopus proregulus*—Alaska (AOU 2008);

Sedge Warbler, *Acrocephalus schoenobaenus*—Alaska (AOU 2009);

Rufous-tailed Robin, *Luscinia sibilans*—Alaska (AOU 2010); and

Yellow-browed Bunting, *Emberiza chrysophrys*—Alaska (AOU 2009).

(5) Add one species because of recent taxonomic changes transferring a species in a family formerly not protected by the MBTA (Timaliidae) into a family protected under the MBTA (Sylviidae). We reference the AOU publication supporting the change: Wrentit, *Chamaea fasciata* (AOU 2010).

(6) Add six species because of recent taxonomic changes in which taxa formerly treated as subspecies have

been determined to be distinct species. Given that each of these species was formerly treated as subspecies of a listed species, these additions will not change the protective status of any of these taxa, only the names by which they are known. In each case, we reference the AOU publication supporting the change:

Eastern Spot-billed Duck, *Anas zonorhyncha*—formerly considered a subspecies of *Anas poecilorhyncha*, Spot-billed Duck (AOU 2008);

Black Scoter, *Melanitta americana*—formerly treated as a subspecies of *Melanitta nigra*, Common [Black] Scoter (AOU 2009);

Mexican Whip-poor-will, *Caprimulgus arizonae*—formerly treated as a subspecies of *Caprimulgus vociferus*, Whip-poor-will (AOU 2010);

Pacific Wren, *Troglodytes pacificus*—formerly treated as a subspecies of *Troglodytes troglodytes*, Eurasian [Winter] Wren (AOU 2010);

Winter Wren, *Troglodytes hiemalis*—formerly treated as a subspecies of *Troglodytes troglodytes*, Eurasian [Winter] Wren (AOU 2010); and

Puerto Rican Oriole, *Icterus portoricensis*—formerly treated as a subspecies of *Icterus dominicensis*, Hispaniolan [Greater Antillean] Oriole (AOU 2010).

(7) Remove four species based on revised taxonomic treatments and distributional evidence confirming that their known geographic ranges lie entirely outside the political boundaries of the United States and its territories. In each case, we reference the AOU publication supporting these changes:

Spot-billed Duck, *Anas poecilorhyncha* (AOU 2008);

Common [Black] Scoter, *Melanitta nigra* (AOU 2009);

Eurasian [Winter] Wren, *Troglodytes troglodytes* (AOU 2010); and Hispaniolan [Greater Antillean] Oriole, *Icterus dominicensis* (AOU 2010).

(8) Revise the common (English) names of nine species to conform to the most recent nomenclatural treatment. These revisions do not change the protective status of any of these taxa, only the names by which they are known. In each case, we reference the published source for the name change:

Greater Flamingo, *Phoenicopterus ruber*, becomes American Flamingo (AOU 2008);

Greater Shearwater, *Puffinus gravis*, becomes Great Shearwater (AOU 2010);

Whip-poor-will, *Caprimulgus vociferus*, becomes Eastern Whip-poor-will (AOU 2010);

Green Violet-ear, *Colibri thalassinus*, becomes Green Violetear (AOU 2008);

Blue Rock Thrush, *Monticola solitarius*, becomes Blue Rock-Thrush (Clements 2007);

Clay-colored Robin, *Turdus grayi*, becomes Clay-colored Thrush (AOU 2008);

White-throated Robin, *Turdus assimilis*, becomes White-throated Thrush (AOU 2008);

Nelson's Sharp-tailed Sparrow, *Ammodramus nelsoni*, becomes Nelson's Sparrow (AOU 2009); and Saltmarsh Sharp-tailed Sparrow, *Ammodramus caudacutus*, becomes Saltmarsh Sparrow (AOU 2009).

(9) Revise the scientific names of 36 species to conform to the most recent nomenclatural treatment. These revisions do not change the protective status of any of these taxa, only the names by which they are known. In each case, we reference the AOU publication documenting the name change:

Larus philadelphia (Bonaparte's Gull) becomes *Chroicocephalus philadelphia* (AOU 2008);

Larus cirrocephalus (Gray-hooded Gull) becomes *Chroicocephalus cirrocephalus* (AOU 2008);

Larus ridibundus (Black-headed Gull) becomes *Chroicocephalus ridibundus* (AOU 2008);

Larus minutus (Little Gull) becomes *Hydrocoloeus minutus* (AOU 2008);

Larus atricilla (Laughing Gull) becomes *Leucophaeus atricilla* (AOU 2008);

Larus pipixcan (Frankin's Gull) becomes *Leucophaeus pipixcan* (AOU 2008);

Cyanocorax morio (Brown Jay) becomes *Psilorhinus morio* (AOU 2010);

Poecile hudsonica (Boreal Chickadee) becomes *Poecile hudsonicus* (AOU 2009);

Poecile cincta (Gray-headed Chickadee) becomes *Poecile cinctus* (AOU 2009);

Calcarius mccownii (McCown's Longspur) becomes *Rhynchophanes mccownii* (AOU 2010);

Vermivora pinus (Blue-winged Warbler) becomes *Vermivora cyanoptera* (AOU 2010);

Vermivora peregrina (Tennessee Warbler) becomes *Oreothlypis peregrina* (AOU 2010);

Vermivora celata (Orange-crowned Warbler) becomes *Oreothlypis celata* (AOU 2010);

Vermivora ruficapilla (Nashville Warbler) becomes *Oreothlypis ruficapilla* (AOU 2010);

Vermivora virginiae (Virginia's Warbler) becomes *Oreothlypis virginiae* (AOU 2010);

Vermivora crissalis (Colima Warbler) becomes *Oreothlypis crissalis* (AOU 2010);

Vermivora luciae (Lucy's Warbler) becomes *Oreothlypis luciae* (AOU 2010);

Parula superciliosa (Crescent-chested Warbler) becomes *Oreothlypis superciliosa* (AOU 2010);

Seiurus noveboracensis (Northern Waterthrush) becomes *Parkesia noveboracensis* (AOU 2010);

Seiurus motacilla (Louisiana Waterthrush) becomes *Parkesia motacilla* (AOU 2010);

Pipilo fuscus (Canyon Towhee) becomes *Melozone fusca* (AOU 2010);

Pipilo crissalis (California Towhee) becomes *Melozone crissalis* (AOU 2010);

Pipilo aberti (Abert's Towhee) becomes *Melozone aberti* (AOU 2010); *Aimophila carpalis* (Rufous-winged Sparrow) becomes *Peucaea carpalis* (AOU 2010);

Aimophila botterii (Botteri's Sparrow) becomes *Peucaea botterii* (AOU 2010);

Aimophila cassinii (Cassin's Sparrow) becomes *Peucaea cassinii* (AOU 2010);

Aimophila aestivalis (Bachman's Sparrow) becomes *Peucaea aestivalis* (AOU 2010);

Aimophila quinquestriata (Five-striped Sparrow) becomes *Amphispiza quinquestriata* (AOU 2010);

Carduelis flammea (Common Redpoll) becomes *Acanthis flammea* (AOU 2009);

Carduelis hornemanni (Hoary Redpoll) becomes *Acanthis hornemanni* (AOU 2009);

Carduelis spinus (Eurasian Siskin) becomes *Spinus spinus* (AOU 2009);

Carduelis pinus (Pine Siskin) becomes *Spinus pinus* (AOU 2009);

Carduelis psaltria (Lesser Goldfinch) becomes *Spinus psaltria* (AOU 2009);

Carduelis lawrencei (Lawrence's Goldfinch) becomes *Spinus lawrencei* (AOU 2009);

Carduelis tristis (American Goldfinch) becomes *Spinus tristis* (AOU 2009); and

Carduelis sinica (Oriental Greenfinch) becomes *Chloris sinica* (AOU 2009).

For ease of comparison, changes are summarized in the following table (numbers reference the categories treated above). Species whose names have been revised (categories 2, 8, and 9) appear in both the left-hand column (old name removed) and right-hand column (new name added), as are species that have been added based on taxonomic splits (category 6) of extralimital species that have been removed (category 7).

How is the list of migratory birds organized?

The species are listed in two formats to suit the needs of different segments of the public: alphabetically in 50 CFR 10.13(c)(1) and taxonomically in 50 CFR 10.13(c)(2). In the alphabetical listing, species are listed by common (English) group names, with the scientific name of each species following the English group name. This format, similar to that used in modern telephone directories, is most useful to members of the lay public. In the taxonomic listing, species are listed in phylogenetic sequence by scientific name, with the English name following the scientific name. To help clarify species relationships, we also list the higher-level taxonomic categories of Order, Family, and Subfamily. This format follows the sequence adopted by the AOU (1998, 2010) and is most useful to ornithologists and other scientists.

What species are not protected by the Migratory Bird Treaty Act?

The MBTA does not apply to:

(1) Nonnative species introduced into the United States or its territories by means of intentional or unintentional human assistance that belong to families or groups covered by the Canadian, Mexican, or Russian Conventions, in accordance with the MBTRA. See 70 FR 12710 (March 15, 2005) for a partial list of nonnative, human-introduced bird species in this category. Note, though, that native species that are introduced into parts of the United States where they are not native are still protected under the MBTA regardless of where they occur in the United States or its territories.

(2) Nonnative, human-introduced species that belong to families or groups not covered by the Canadian, Mexican, or Russian Conventions, including Tinamidae (tinamous), Cracidae (chachalacas), Megapodiidae (megapodes), Phasianidae (grouse, ptarmigan, and turkeys), Turnicidae (buttonquails), Odontophoridae (New World quail), Pteroclididae (sandgrouse), Psittacidae (parrots), Dicuridae (drongos), Rhamphastidae (toucans), Musophagidae (turacos), Bucerotidae (hornbills), Bucorvidae (ground-hornbills), Pycnonotidae (bulbuls), Pittidae (pittas), Irenidae (fairy-bluebirds), Timaliidae (babblers), Zosteropidae (white-eyes), Sturnidae (starlings; except as listed in the Japanese Convention), Passeridae (Old

World sparrows), Ploceidae (weavers), Estrildidae (estrildid finches), and numerous other families not currently represented in the United States or its territories.

(3) Native species that belong to families or groups represented in the United States, but which are not expressly mentioned by the Canadian, Mexican, or Russian Conventions, including the Megapodiidae (megapodes), Phasianidae (grouse, ptarmigan, and turkeys), Odontophoridae (New World quail), Burhinidae (thick-knees), Glareolidae (pratincoles), Psittacidae (parrots), Todidae (todies), Meliphagidae (honeyeaters), Monarchidae (monarch flycatchers [elepaios]), Zosteropidae (white-eyes), and Coerebidae (bananaquit). It should be noted that this rule supersedes the 70 FR 12710 notice to the extent that they are inconsistent. Specifically, the 1996 amendment to the Canadian Convention included the family Muscicapidae (Old World flycatchers). Thus, all members of the Muscicapidae family are now included on this list. In addition, the Wrenit is now considered a member of the Sylviidae family rather than the Timaliidae family and is now included on this list.

Partial lists of the species included in categories 2 and 3 are available at <http://www.fws.gov/migratorybirds/RegulationsPolicies/mbta/MBTAProtectedNonprotected.html>.

Public Comments

We request comments or suggestions on this proposed rule from any interested parties. You may submit your comments and materials concerning this proposed rule by one of the methods listed in the **ADDRESSES** section. We will not consider comments sent by e-mail or fax or to an address not listed in the **ADDRESSES** section.

If you submit a comment via <http://www.regulations.gov>, your entire comment—including any personal identifying information—will be posted on the Web site. If you submit a hardcopy comment that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy comments on <http://www.regulations.gov>.

Comments and materials we receive, as well as supporting documentation we

used in preparing this proposed rule, will be available for public inspection at <http://www.regulations.gov>, or by appointment, during normal business hours, at the U.S. Fish and Wildlife Service (see **FOR FURTHER INFORMATION CONTACT**). You may obtain copies of our previous actions concerning this subject by mail (see **FOR FURTHER INFORMATION CONTACT**) or by visiting the Federal eRulemaking Portal at <http://www.regulations.gov>.

Required Determinations

Regulatory Planning and Review (Executive Order 12866)

The Office of Management and Budget (OMB) has determined that this proposed rule is not significant under Executive Order 12866. OMB bases its determination upon the following four criteria:

(a) Whether the rule will have an annual effect of \$100 million or more on the economy or adversely affect an economic sector, productivity, jobs, the environment, or other units of the government.

(b) Whether the rule will create inconsistencies with other Federal agencies' actions.

(c) Whether the rule will materially affect entitlements, grants, user fees, loan programs, or the rights and obligations of their recipients.

(d) Whether the rule raises novel legal or policy issues.

Regulatory Flexibility Act (5 U.S.C. 601 et seq.)

Under the Regulatory Flexibility Act (5 U.S.C. 601 et seq., as amended by the Small Business Regulatory Enforcement Fairness Act (SBREFA) of 1996 (Pub. L. 104–121)), whenever an agency is required to publish a notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis that describes the effect of the rule on small entities (i.e., small businesses, small organizations, and small government jurisdictions). However, no regulatory flexibility analysis is required if the head of an agency certifies the rule does not have a significant economic impact on a substantial number of small entities.

SBREFA amended the Regulatory Flexibility Act to require Federal agencies to provide the statement of the factual basis for certifying that a rule will not have a significant economic

impact on a substantial number of small entities. We have examined this proposed rule's potential effects on small entities as required by the Regulatory Flexibility Act, and have determined that this action would not have a significant economic impact on a substantial number of small entities, because we are simply updating the list of migratory bird species protected under the Conventions. Consequently, we certify that because this rule does not have a significant economic effect on a substantial number of small entities, a regulatory flexibility analysis is not required.

This proposed rule is not a major rule under SBREFA (5 U.S.C. 804(2)). It would not have a significant impact on a substantial number of small entities.

a. This proposed rule would not have an annual effect on the economy of \$100 million or more.

b. This proposed rule would not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions.

c. This proposed rule will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Unfunded Mandates Reform Act

In accordance with the Unfunded Mandates Reform Act (2 U.S.C. 1501 *et seq.*), we have determined the following:

a. This proposed rule would not "significantly or uniquely" affect small governments. A small government agency plan is not required. Actions under the proposed regulation would not affect small government activities in any significant way.

b. This proposed rule would not produce a Federal mandate of \$100 million or greater in any year; i.e., it is not a "significant regulatory action" under the Unfunded Mandates Reform Act.

Takings

In accordance with Executive Order 12630, the proposed rule would not have significant takings implications. This proposed rule does not contain a provision for taking of private property. Therefore, a takings implication assessment is not required.

Federalism

This proposed rule would not have sufficient Federalism effects to warrant preparation of a Federalism assessment under Executive Order 13132. It would not interfere with the States' ability to manage themselves or their funds. No

significant economic impacts are expected to result from the updating of the list of migratory bird species.

Civil Justice Reform

In accordance with Executive Order 12988, the Office of the Solicitor has determined that the proposed rule would not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of the Order.

Paperwork Reduction Act

We examined this proposed rule under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). There are no new information collection requirements associated with this proposed rule. We are not requiring any new permits, reports, or recordkeeping in this proposed rule.

National Environmental Policy Act (NEPA)

Given that the revision of 50 CFR 10.13 is strictly administrative in nature and will have no or minor environmental effects, it is categorically excluded from further NEPA requirements (43 CFR 46.210(h)).

Endangered Species Act (ESA)

Seventy-five of the species on the proposed List of Migratory Birds are also designated as endangered or threatened in all or some portion of their U.S. range under provisions of the Endangered Species Act of 1973 (16 U.S.C. 1531–44; 50 CFR 17.11). No legal complications arise from the dual listing since the two lists are developed under separate authorities and for different purposes. Because the rule is strictly administrative in nature, it does not require ESA consultation.

Government-to-Government Relationship With Tribes

In accordance with the President's memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal Governments" (59 FR 22951), Executive Order 13175, and 512 DM 2, we have evaluated potential effects on Federally-recognized Indian tribes and have determined that there are no potential effects. The revisions to existing regulations in this proposed rule are purely administrative in nature and would not interfere with the tribes' ability to manage themselves or their funds or to regulate migratory bird activities on tribal lands.

Energy Supply, Distribution, or Use (Executive Order 13211)

On May 18, 2001, the President issued Executive Order 13211 addressing

regulations that significantly affect energy supply, distribution, and use. Executive Order 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. Because this proposed rule only affects the listing of protected species in the United States, it is not a significant regulatory action under Executive Order 12866, and does not significantly affect energy supplies, distribution, or use. Therefore, this action is not a significant energy action and no Statement of Energy Effects is required.

Proposed Regulation Promulgation

For the reasons discussed in the preamble, we propose to amend title 50, chapter I, subchapter B, part 10 of the Code of Federal Regulations, as follows:

PART 10—[AMENDED]

1. The authority citation for part 10 continues to read as follows:

Authority: 18 U.S.C. 42; 16 U.S.C. 703–712; 16 U.S.C. 668a–d; 19 U.S.C. 1202; 16 U.S.C. 1531–1543; 16 U.S.C. 1361–1384, 1401–1407; 16 U.S.C. 742a–742j–1; 16 U.S.C. 3371–3378.

2. Revise § 10.13 to read as follows:

§ 10.13 List of Migratory Birds.

(a) *Legal authority for this list.* The legal authorities for this list are the Migratory Bird Treaty Act (MBTA; 16 U.S.C. 703–712), the Fish and Wildlife Improvement Act of 1978 (16 U.S.C. 742l), and the Fish and Wildlife Act of 1956 (16 U.S.C. 742a–742j). The MBTA implements Conventions between the United States and four neighboring countries for the protection of migratory birds, as follows:

(1) *Canada:* Convention between the United States and Great Britain [on behalf of Canada] for the Protection of Migratory Birds, August 16, 1916, 39 Stat. 1702 (T.S. No. 628), as amended;

(2) *Mexico:* Convention between the United States and Mexico for the Protection of Migratory Birds and Game Mammals, February 7, 1936, 50 Stat. 1311 (T.S. No. 912), as amended;

(3) *Japan:* Convention between the Government of the United States of America and the Government of Japan for the Protection of Migratory Birds and Birds in Danger of Extinction, and Their

Environment, March 4, 1972, 25 U.S.T. 3329 (T.I.A.S. No. 7990); and

(4) *Russia*: Convention between the United States of America and the Union of Soviet Socialist Republics Concerning the Conservation of Migratory Birds and Their Environment, November 19, 1976, 20 U.S.T. 4647 (T.I.A.S. No. 9073).

(b) *Purpose of this list*. The purpose is to inform the public of the species protected by regulations that enforce the terms of the MBTA. These regulations, found in parts 10, 20, and 21 of this chapter, cover most aspects of the taking, possession, transportation, sale, purchase, barter, exportation, and importation of migratory birds.

(c) *What species are protected as migratory birds?* Species protected as migratory birds are listed in two formats to suit the varying needs of the user: Alphabetically in paragraph (c)(1) of this section and taxonomically in paragraph (c)(2) of this section. Taxonomy and nomenclature generally follow the 7th edition of the American Ornithologists' Union's *Check-list of North American birds* (1998, as amended through 2010). For species not treated by the AOU *Check-list*, we generally follow *The Clements Checklist of Birds of the World* (Clements 2007).

(1) *Alphabetical listing*. Species are listed alphabetically by common (English) group names, with the scientific name of each species following the common name.

Larus glaucescens, Glaucous-winged Gull
Larus hyperboreus, Glaucous Gull
Larus marinus, Great Black-backed Gull
Larus dominicanus, Kelp Gull
Subfamily STERNINAE
Anous stolidus, Brown Noddy
Anous minutus, Black Noddy
Procelsterna cerulea, Blue-gray Noddy
Gygis alba, White Tern
Onychoprion fuscatus, Sooty Tern
Onychoprion lunatus, Gray-backed Tern
Onychoprion anaethetus, Bridled Tern
Onychoprion aleuticus, Aleutian Tern
Sternula albifrons, Little Tern
Sternula antillarum, Least Tern
Phaetusa simplex, Large-billed Tern
Gelochelidon nilotica, Gull-billed Tern
Hydroprogne caspia, Caspian Tern

- Chlidonias niger*, Black Tern
Chlidonias leucopterus, White-winged Tern
Chlidonias hybridus, Whiskered Tern
Sterna dougallii, Roseate Tern
Sterna sumatrana, Black-naped Tern
Sterna hirundo, Common Tern
Sterna paradisaea, Arctic Tern
Sterna forsteri, Forster's Tern
Thalasseus maximus, Royal Tern
Thalasseus bergii, Great Crested Tern
Thalasseus sandvicensis, Sandwich Tern
Thalasseus elegans, Elegant Tern
Subfamily RYNCHOPINAE
Rynchops niger, Black Skimmer
Family STERCORARIIDAE
Stercorarius skua, Great Skua
Stercorarius macconnicki, South Polar Skua
Stercorarius pomarinus, Pomarine Jaeger
Stercorarius parasiticus, Parasitic Jaeger
Stercorarius longicaudus, Long-tailed Jaeger
Family ALCIDAE
Alle alle, Dovekie
Uria aalge, Common Murre
Uria lomvia, Thick-billed Murre
Alca torda, Razorbill
Cepphus grylle, Black Guillemot
Cepphus columba, Pigeon Guillemot
Brachyramphus perdix, Long-billed Murrelet
Brachyramphus marmoratus, Marbled Murrelet
Brachyramphus brevirostris, Kittlitz's Murrelet
Synthliboramphus hypoleucus, Xantus's Murrelet
Synthliboramphus craveri, Craveri's Murrelet
Synthliboramphus antiquus, Ancient Murrelet
Ptychoramphus aleuticus, Cassin's Auklet
Aethia psittacula, Parakeet Auklet
Aethia pusilla, Least Auklet
Aethia pygmaea, Whiskered Auklet
Aethia cristatella, Crested Auklet
Cerorhinca monocerata, Rhinoceros Auklet
Fratercula arctica, Atlantic Puffin
Fratercula corniculata, Horned Puffin
Fratercula cirrhata, Tufted Puffin
Order COLUMBIFORMES
Family COLUMBIDAE
Patagioenas squamosa, Scaly-naped Pigeon
Patagioenas leucocephala, White-crowned Pigeon
Patagioenas flavirostris, Red-billed Pigeon
Patagioenas inornata, Plain Pigeon
Patagioenas fasciata, Band-tailed Pigeon
Streptopelia orientalis, Oriental Turtle-Dove
Zenaida asiatica, White-winged Dove
Zenaida aurita, Zenaida Dove
Zenaida macroura, Mourning Dove
