SUPPLEMENTARY INFORMATION: In accordance with 24 CFR part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD publishes a weekly notice in the **Federal Register** listing Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties are reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. HUD's weekly notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.).

Dated: August 9, 2012.

Ann Marie Oliva,

Deputy Assistant Secretary for Special Needs (Acting).

Draft Environmental Assessment and Draft Habitat Conservation Plan for TransCanada Keystone Pipeline's Gulf Coast Project in Oklahoma

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of the draft Environmental Assessment and draft Habitat Conservation Plan for TransCanada Keystone Pipeline's (Keystone) Gulf Coast Project in Oklahoma, under the National Environmental Policy Act of 1969. Keystone has applied for an incidental take permit under the Endangered Species Act, that would authorize incidental take of the American burying beetle.

DATES: To ensure consideration of your written comments, we must receive them on or before close of business (4:30 p.m. CST) on September 17, 2012.

ADDRESSES: To obtain documents for review, see Reviewing Documents in **SUPPLEMENTARY INFORMATION.**

Comments concerning the application, the draft Environmental Assessment (DEA), or the draft Habitat Conservation Plan (DHCP) should be submitted in writing, by one of the following methods:

Email: Keystone_HCP_OK@fws.gov; or

U.S. mail: Field Supervisor, Oklahoma Ecological Services Field Office, U.S. Fish and Wildlife Service, 9014 E. 21st St., Tulsa, OK 74129.

Please refer to Permit number TE80492A-0 when submitting comments. Please specify if comments are in reference to the DEA, DHCP, or both.

FOR FURTHER INFORMATION CONTACT: Dr. Dixie Porter, at the U.S. Fish and Wildlife Service, Oklahoma Ecological Services Field Office, 9014 E. 21st St., Tulsa, OK 74129, or by phone at 918-581-7458.

SUPPLEMENTARY INFORMATION: Under the National Environmental Policy Act (NEPA), we advise the public that:

1. We have gathered the information necessary to determine impacts and formulate alternatives for the DEA related to the potential issuance of an incidental take permit (ITP) to TransCanada Keystone Pipeline, LP (applicant, Keystone); and

2. The applicant has developed a DHCP as part of the application for an ITP (TE80492A-0), which describes the measures Keystone has agreed to undertake to minimize and mitigate the effects of incidental take of the federally listed American burying beetle (*Nicrophorus americanus*; ABB) to the maximum extent practicable, pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The requested ITP, which would be in effect for a period of 50 years if granted, would authorize incidental take of the ABB (covered species) resulting from activities associated with construction, maintenance, operation, and repair (both routine and emergency) of Keystone's Gulf Coast Project and associated activities (covered activities). As described in the DHCP, the proposed incidental take would occur within the ABB's range in Oklahoma as identified by the Service, which includes portions of Creek, Okfuskee, Seminole, Hughes, Coal, Atoka, and Bryan Counties, Oklahoma (permit area). The DEA considers the direct, indirect, and cumulative effects of the proposed action of permit issuance, including the measures that would be implemented to minimize and mitigate such impacts to the maximum extent practicable.

Background

The Keystone XL Pipeline Project was previously proposed by TransCanada,

with a request for a Presidential Permit. The U.S. Department of State (DOS) published a notice of intent (NOI) to prepare an environmental impact statement in the **Federal Register** on January 28, 2009 (74 FR 5019), and public scoping meetings were conducted in connection with the applicant's requested Presidential Permit. The proposed Keystone XL Pipeline Project extended from Canada to the Gulf Coast. A draft environmental impact statement was prepared by the DOS [EIS No. 20110290, Final EIS, DOS] for the Keystone XL Pipeline Project. The Environmental Protection Agency (EPA) published a notice of availability of the Draft Environmental Impact Statement on April 20, 2010 (75 FR 51458). On August 26, 2011, the DOS published a notice of availability (76 FR 53525) of the final EIS and announced public meetings to solicit comments for the Secretary of State's (or her designee) consideration of the Keystone XL Pipeline with a notice that no decision would be made until the completion of a thorough review process. The EPA published its notice of availability of the final EIS in the **Federal Register** on September 2, 2011 (76 FR 54767). A Presidential Memorandum dated February 1, 2012, directed the Department of State to issue a denial of the Keystone XL Pipeline Presidential Permit application (77 FR 5614; February 3, 2012).

Keystone continued to develop the Gulf Coast portion of the project, including working with the Service towards the development of an HCP for the ABB. The Gulf Coast Project in this HCP follows the same route as the previously proposed Keystone XL's Gulf Coast Segment. Because the majority of impacts were previously analyzed in the final EIS developed for the Keystone XL pipeline project, a DEA, that includes the analysis from that EIS by reference, has been prepared in response to the application for an ITP for the ABB.

Proposed Action

The proposed action involves the issuance of an ITP by the Service for incidental take of the ABB associated with the construction, maintenance, operation, and repair of the pipeline and associated facilities occurring within the permit area. To meet the requirements of a section 10(a)(1)(B) ITP, the applicant has developed and proposes to implement its DHCP, which describes the conservation measures TransCanada has agreed to undertake to minimize and mitigate for the impacts of the proposed incidental take of the covered species to the maximum extent practicable, and ensures that incidental

take will not appreciably reduce the likelihood of the survival and recovery of the ABB in the wild.

Other Alternatives Considered

Our proposed action is approving the applicant's DHCP and issuance of an ITP for take associated with the applicant's covered activities. As required by NEPA, the DEA considers the consequences to the human environmental of the proposed HCP and two alternatives; the No Action Alternative and a Reduced Permit Duration Alternative. Under the No Action Alternative, Keystone would not apply for and we would not issue an ITP. The No-Action Alternative does not meet Keystone's need for take authorization and would not provide any conservation benefits for the ABB.

Under the Reduced Permit Duration Alternative, the applicant would employ the same avoidance and minimization measures described under the Proposed Alternative, but they would pursue an ITP only for construction and restoration activities, not to exceed 5 years. This alternative would not meet Keystone's need for incidental take authorization for operation and maintenance activities post-construction. Additionally, this alternative provides less conservation benefit for the covered species than would the Proposed Action.

Reviewing Documents

You may obtain copies of the DEA and DHCP on the Service's Web site at <http://www.fws.gov/southwest/es/Oklahoma/>.

Alternatively, you may obtain CD-ROMs with electronic copies of these documents by writing to Dr. Dixie Porter, Field Supervisor, U.S. Fish and Wildlife Service, 9014 E. 21st St., Tulsa, OK 74129; calling 918-581-7458; or faxing 918-581-7467. A limited number of printed copies of the DEA and DHCP are also available, by request, from Dr. Porter. Copies of the DEA and DHCP are also available for public inspection and review by appointment only, during normal business hours (8 a.m. to 4:30 p.m. CST) at the following locations:

- Department of the Interior, Natural Resources Library, 1849 C. St. NW., Washington, DC 20240;
- U.S. Fish and Wildlife Service, 500 Gold Avenue SW., Room 6034, Albuquerque, NM 87102; and
- U.S. Fish and Wildlife Service, 9014 E. 21st St., Tulsa, OK 74129.

Persons wishing to review the application may obtain a copy by writing to the Regional Director, U.S. Fish and Wildlife Service, P.O. Box

1306, Room 6034, Albuquerque, NM 87103.

Persons wishing to review the Keystone XL Pipeline Project final EIS may obtain a copy from the Department of State's Web site at: http://keystonepipeline-xl.state.gov/archive/dos_docs/feis/index.htm.

Public Availability of Comments

All comments we receive become part of the public record. Requests for copies of comments will be handled in accordance with the Freedom of Information Act, NEPA, and Service and Department of the Interior policies and procedures. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us to withhold your personal identifying information from public review, we cannot guarantee we will be able to do so. We will not consider anonymous comments. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under section 10(c) of the Act (16 U.S.C. 1531 et seq.) and its implementing regulations (50 CFR 17.22 and 17.32), and the National Environmental Policy Act (42 U.S.C. 4371 et seq.) and its implementing regulations (40 CFR 1506.6).

Joy E. Nicholopoulos,

Acting Regional Director, Southwest Region, Albuquerque, New Mexico.

Notice of Availability of the Final Environmental Impact Statement for the Lost Creek Uranium In Situ Recovery Project in Sweetwater County, WY

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) has prepared a Final Environmental Impact Statement (EIS) for the Lost Creek Uranium In Situ Recovery (ISR) Project and by this notice is announcing its availability.

DATES: The BLM will not issue a final decision on the proposal for a minimum of 30 days from the date that the Environmental Protection Agency publishes this notice in the **Federal Register**.

ADDRESSES: Copies of the Lost Creek Uranium ISR Project Final EIS are available for public inspection at:

- Bureau of Land Management, Wyoming State Office, 5353 Yellowstone Road, Cheyenne, Wyoming 82009;

- Bureau of Land Management, High Desert District Office, 280 Highway 191 North, Rock Springs, Wyoming 82901;

- Bureau of Land Management, Rawlins Field Office, 1300 N. Third Street, Rawlins, Wyoming 82301; and

- Bureau of Land Management, Lander Field Office, 1335 Main Street, Lander, Wyoming 82520.

Interested persons may also review the Final EIS on the Internet at: <http://www.blm.gov/wy/st/en/info/NEPA/documents/rfo/lostcreek.html>.

FOR FURTHER INFORMATION CONTACT: John Russell, Project Manager, telephone: 307-328-4252; address: Bureau of Land Management, Rawlins Field Office, 1300 N. Third Street, P.O. Box 2407, Rawlins, Wyoming 82301; email:

Lost_Crk_Mine_WY@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above-named individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION:

Development of Federal locatable minerals by private industry is part of the BLM's mineral program under the authority of 43 CFR 3800. The applicant, Lost Creek ISR, LLC (Lost Creek), has filed a plan of operations pursuant to the 43 CFR 3809 regulations to construct a uranium ore recovery plant, an access road to the site, and a pipeline system for the flow of oxidizing leach solution to injection wells and the return of fluids from recovery wells to the recovery plant site; to drill injection, recovery and monitoring wells; and to
