SUPPLEMENTARY INFORMATION:

Background

On July 6, 2012, we published in the **Federal Register** a combined 12-month finding and proposed rule to list the hyacinth macaw (*Anodorhynchus hyacinthinus*) (77 FR 39965), and a combined 12-month finding and proposed rule to list two macaw species, the military macaw (*Ara militaris*) and great green macaw (*Ara ambiguus*) (77 FR 40172), as endangered under the Act (16 U.S.C. 1531 *et seq.*). These proposals each had a 60-day comment period, ending September 4, 2012. We received no requests for a public hearing on

either of these two proposals; therefore, no public hearings will be held. However, we received several requests from the public to extend the comment period on these proposals. Therefore, we are reopening the comment periods on both of these proposed rules for an additional 60 days (see **DATES**).

Public Comments

We will accept written comments and information concerning these proposed rules during this reopened comment period. We will consider information and recommendations from all interested parties. We intend that any final action resulting from these proposals be as accurate as possible and based on the best available scientific and commercial data. For more information on the specific information we are seeking, please see the July 6, 2012, proposed listing rules (77 FR 39965; 77 FR 40172). If you previously submitted comments or information on the proposed rule, please do not resubmit them. We have incorporated them into the public record, and we will fully consider them in the preparation of our final determinations. Our final determinations concerning these proposed listings will take into consideration all written comments and any additional information we receive. You may submit your comments and materials by one of the methods listed in the **ADDRESSES** section. We will not accept comments sent by email or fax or to an address not listed in the **ADDRESSES** section. If you submit a comment via <http://www.regulations.gov>, your entire comment—including your personal identifying information—will be posted on the Web site. If you submit a hardcopy comment that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy comments on <http://www.regulations.gov>.

Comments and materials we receive, as well as supporting documentation we used in preparing the proposed rule, will be available for public inspection on the Internet at <http://www.regulations.gov> at Docket No. FWS-R9-ES-2012-0013 for the hyacinth macaw, and at Docket No. FWS-R9-ES-2011-0101 for the military macaw and great green macaw, or by appointment, during normal business hours, at the Branch of Foreign Species (see **FOR FURTHER INFORMATION CONTACT**). You may obtain copies of the proposed rules on the Internet at <http://www.regulations.gov> at Docket No.

FWS-R9-ES-2012-0013 for the hyacinth macaw, and at Docket No. FWS-R9-ES-2011-0101 for the military macaw and great green macaw, or by mail from the Branch of Foreign Species (see **FOR FURTHER INFORMATION CONTACT**).

Authority: The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

RIN 0648-BC64

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Gag Management Measures in the Gulf of Mexico

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes regulations to implement management measures described in a regulatory amendment to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP), as prepared by the Gulf of Mexico Fishery Management Council (Council). If implemented, this rule would (1) establish a closure date for the 2013 recreational sector for gag harvest based on the projected annual catch target (ACT), and (2) reduce the geographic extent of the recreational shallow-water grouper (SWG) fixed seasonal closure, which are in place to prevent overfishing of gag, and to reduce fishing pressure on other SWG species. The reduction in the geographic extent of the closure still would provide some spawning season protection for several SWG species, but provides a better opportunity for the recreational sector to achieve optimum yield (OY) from the stocks in the SWG complex in the Gulf of Mexico (Gulf). This proposed rule is intended to help achieve OY for the Gulf gag and other SWG resources and prevent overfishing from the stocks in the SWG complex.

DATES: Written comments must be received on or before March 25, 2013.

ADDRESSES: You may submit comments on this document, identified by “NOAA-NMFS-2013-0012”, by any of the following methods:

- **Mail:** Submit written comments to Peter Hood, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (*e.g.*, name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word, Excel, or Adobe PDF file formats only.

SUPPLEMENTARY INFORMATION: The reef fish fishery of the Gulf is managed under the FMP. The FMP was prepared by the Council and is implemented through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

Background

The Magnuson-Stevens Act requires NMFS and regional fishery management councils to prevent overfishing and achieve, on a continuing basis, OY from federally managed fish stocks. The reauthorized Magnuson-Stevens Act, as
