Financial Assistance: Wildlife Restoration, Sport Fish Restoration, Hunter Education and Safety; Correction**AGENCY:** Fish and Wildlife Service, Interior.**ACTION:** Final rule; technical amendment.

SUMMARY: The Fish and Wildlife Service published a final rule in the **Federal Register** on August 1, 2011 (76 FR 46150). We included in this final rule a combined symbol to use when referring to both the Wildlife Restoration and the Sport Fish Restoration programs together. The language around the symbol is in reverse order, and this document corrects the error.

DATES: Effective September 12, 2014.

FOR FURTHER INFORMATION CONTACT: Lisa E. Van Alstyne, Wildlife and Sport Fish Restoration Program, Division of Policy and Programs, U.S. Fish and Wildlife Service, 703-358-1942.

SUPPLEMENTARY INFORMATION:**Background**

Symbols were added to the regulations governing the Wildlife Restoration and Sport Fish Restoration (WSFR) programs through regulations published December 15, 1987 (52 FR 47571). One symbol represents the Wildlife Restoration Program, one represents the Sport Fish Restoration Program, and one represents the combined programs. The language in the combined symbol reads "Sport Fish and Wildlife Restoration." The symbols have remained the same since originally published.

Need for Correction

At the time the symbol was first developed, the program within the Service that administers these grant programs was called "Division of Federal Aid." Since then, we have changed our name to the "Wildlife and Sport Fish Restoration Program." The order of programs reflects that the Wildlife Restoration Program was authorized prior to the Sport Fish Restoration Program. It has been many years since we have changed our name, and referencing WSFR is now common. Having the combined symbol read

"Sport Fish and Wildlife Restoration" is confusing to States who implement projects with WSFR funding; manufacturers who contribute millions of dollars through excise taxes, boater fuel and electric motor taxes, and import duties that contribute to the Wildlife Restoration Account and the Sport Fish Restoration and Boating Trust Fund; and interested stakeholders.

In 2011, we completed a comprehensive review and update to 50 CFR part 80 (76 FR 46150, August 1, 2011). We neglected to correct the symbol to reflect the current name of the WSFR program and now correct this error.

If a State or other entity is using the former combined symbol on signs, print media, or other physical items to identify WSFR or WSFR-funded projects, they should continue to use those items until quantities are exhausted or they are normally replaced. The new combined symbol may be used immediately for electronic updates or new signs, print media, or other physical items. If you have questions on the appropriate use of the combined symbol, contact the person listed under **FOR FURTHER INFORMATION CONTACT**, above.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Extension of the 2014 Gulf of Mexico Recreational Red Grouper Season

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; extension.

SUMMARY: NMFS extends the recreational fishing season for the red grouper component of the reef fish fishery in the exclusive economic zone (EEZ) of the Gulf of Mexico (Gulf) for the 2014 fishing year through this temporary rule. On April 30, 2014, NMFS published a temporary rule to implement accountability measures and a closure for the recreational sector for red grouper. That temporary rule reduced the red grouper bag limit in the Gulf EEZ to three fish (within the current four-fish grouper aggregate bag limit) and announced a recreational fishing season closure date of September 16, 2014, based on a recreational annual catch limit (ACL) overage in 2013 and the reduced bag limit. However, using updated landings information from 2014, NMFS has determined that the recreational fishing season for red grouper may be extended for an additional 18 days. The purpose of this action is to provide fishermen the opportunity to harvest the recreational annual catch target (ACT) for Gulf red grouper, and the opportunity to achieve the optimum yield for the fishery, thus
