

seven tribes with areas of Indian country in the SJV nonattainment area inviting government-to-government consultation on the rulemaking effort. We requested that the tribal leaders, or their designated consultation representatives, provide input or request government-to-government consultation by October 27, 2014. We did not receive a response from any of the tribes. As noted above, EPA inadvertently did not send a letter to the Tejon Indian Tribe prior to this proposed action. We recognize that the proposed reclassification may be of interest to officials of the Tejon Indian Tribe and we are contacting them presently to offer them an opportunity for government-to-government consultation. We intend to continue communicating with all eight tribes located within the boundaries of the SJV nonattainment area for the 1997 PM_{2.5} NAAQS as we move forward developing a final rule. EPA specifically solicits additional comment on this proposed rule from tribal officials.

G. Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks

EPA interprets Executive Order 13045 (62 FR 19885, April 23, 1997) as applying only to those regulatory actions that concern environmental health or safety risks that EPA has reason to believe may disproportionately affect children, per the definition of “covered regulatory action” in section 2–202 of the Executive Order. This proposed action is not subject to Executive Order 13045 because it proposes only to reclassify the SJV nonattainment area as Serious nonattainment for the 1997 PM_{2.5} NAAQS, which would trigger additional Serious area planning requirements under the CAA. This proposed action does not establish an environmental standard intended to mitigate health or safety risks.

H. Executive Order 13211, Actions That Significantly Affect Energy Supply, Distribution, or Use

This proposed rule is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply,

Distribution, or Use” (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act

This action is not subject to the requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because it does not involve technical standards.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Population

Executive Order 12898 (59 FR 7629, Feb. 16, 1994) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States.

EPA has determined that this action will not have disproportionately high and adverse human health or environmental effects on minority or low-income populations because it does not affect the level of protection provided to human health or the environment. This proposed action would only reclassify the SJV nonattainment area as Serious nonattainment for the 1997 PM_{2.5} NAAQS, which would trigger additional Serious area planning requirements under the CAA.

Endangered and Threatened Wildlife and Plants; Proposed Endangered Status for 21 Species and Proposed Threatened Status for 2 Species in Guam and the Commonwealth of the Northern Mariana Islands

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; reopening of public comment period and notice of public hearings.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), recently published a proposed listing for 21 plant and animal species from the Mariana Islands (U.S. Territory of Guam and the U.S. Commonwealth of the Northern Mariana Islands) as endangered species and 2 plant species from the Mariana Islands as threatened species under the Endangered Species Act of 1973, as amended (Act), and announced a 60-day public comment period on the proposed actions, ending December 1, 2014. We now reopen the public comment period for an additional 30 days, and announce two public hearings and four public information meetings on our proposed rule. We are taking these actions to allow all interested parties additional time and opportunity to comment on the proposed rule.

DATES: *Written Comments:* We will consider comments received or postmarked on or before February 11, 2015, or provided at the public hearings. Please note comments submitted electronically using the Federal eRulemaking Portal (see **ADDRESSES**) must be received by 11:59 p.m. Eastern Time on the closing date. Any comments that we receive after the closing date may not be considered in the final decision on the proposed rule.
