Endangered and Threatened Wildlife and Plants; 90-Day Finding on a Petition To List the Island Marble Butterfly as an Endangered Species; Correction

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of petition finding; correction.

SUMMARY: We, the U.S. Fish and Wildlife Service, published a 90-day finding in the *Federal Register* on August 19, 2014, determining that a petition to list the island marble butterfly (*Euchloe ausonides insulanus*) as an endangered species under the Endangered Species Act of 1973, as amended, presented substantial information indicating listing may be warranted. We promptly initiated a status review and requested information on the species from any interested parties. We made an error in the requested deadline for information submission. With this document, we correct the error.

DATES: The requested deadline for information submission in the petition finding published on August 19, 2014 (79 FR 49045), is corrected in this document. To allow us adequate time to conduct the status review, we request that we receive information on or before April 6, 2015. After April 6, 2015, you must submit information by U.S. mail or hand-delivery to the U.S. Fish and Wildlife Service (see **ADDRESSES**, below). Please note that we might not be able to address or incorporate information that we receive after the above requested date.

SUPPLEMENTARY INFORMATION: We published a 90-day finding in the *Federal Register* on August 19, 2014 (79 FR 49045), on a petition to list the island marble butterfly (*Euchloe ausonides insulanus*) as an endangered species under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*). When we make such a finding that a petition presents substantial information indicating that listing a species may be warranted, we are required to promptly review the status of the species (status review; also commonly referred to as a "12-month finding"). For the status review to be complete and based on the best available scientific and commercial data, we requested information on the island marble butterfly from governmental agencies, Native American tribes, the scientific community, industry, and any other interested parties. However, in the 90-day finding, we incorrectly stated the requested deadline for information submission was December 31, 2016. The correct date by which we request that the public submit information is listed above in the **DATES** section of this document. Please see the August 19, 2014 (79 FR 49045), publication for details on the items for which we request information.
