Proposed Information Collection; Wildlife and Sport Fish Grants and Cooperative Agreements

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (U.S. Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. This IC is scheduled to expire on September 30, 2015. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by July 10, 2015.

ADDRESSES: Send your comments on this IC to the Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS BPHC, 5275 Leesburg Pike, Falls Church, VA 22041-3803 (mail); or hope_grey@fws.gov (email). Please include "1018-0109" in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Hope Grey at hope_grey@fws.gov (email) or 703-358-2482 (telephone).

SUPPLEMENTARY INFORMATION:

I. Abstract

The Wildlife and Sport Fish Restoration Program (WSFR), U.S. Fish and Wildlife Service, administers the following financial assistance programs in whole or in part. * Program has open grants, but no new funding.

Authorities and implementing regulations establish the purposes of the grant programs and the types of projects to be funded. Some list eligibility criteria as well as activities ineligible for funding. The authorities and implementing regulations for the competitive programs establish preferences or ranking factors for the selection of projects to be funded. These legal requirements make it essential for an awarding agency to have certain information so that it funds only eligible projects, and, in the case of competitive programs, to select those projects that will result in the greatest return on the Federal investment.

Some grants are mandatory and receive funds according to a formula set by law or policy. Other grants are discretionary, and we award them based on a competitive process. Mandatory grant recipients must give us specific, detailed project information during the application process so that we can ensure that projects are eligible for the mandatory funding, are substantial in character and design, and comply with all applicable Federal laws. All grantees must submit financial and performance reports that contain information necessary for us to track costs and accomplishments.

In February 2014, OMB approved our request to use a new electronic system (Wildlife Tracking and Reporting Actions for the Conservation of Species (Wildlife TRACS)) to collect application and performance reporting information on our grant programs. OMB assigned OMB Control No. 1018–0156, which expires February 28, 2017. Wildlife

TRACS allows us to take advantage of newer technology and gives applicants direct access to enter project information that can be used to submit an application through <http://www.grants.gov>. Grantees can also report performance accomplishments in Wildlife TRACS. We are including the use of Wildlife TRACS and the collection of additional information in this revision to OMB Control No. 1018–0109. If OMB approves this revision, we will discontinue OMB Control No. 1018–0156.

To apply for financial assistance funds, you must submit an application that describes in substantial detail project locations, benefits, funding, and other characteristics. Materials to assist applicants in formulating project proposals are available on Grants.gov. We use the application to determine:

- Eligibility.
- Scale of resource values or relative worth of the project.
- If associated costs are reasonable and allowable.
- Potential effect of the project on environmental and cultural resources.
- How well the proposed project will meet the purposes of the program's establishing legislation.
- If the proposed project is substantial in character and design.
- For competitive programs, how the proposed project addresses ranking criteria.

Persons or entities receiving grants must submit periodic performance reports that contain information necessary for us to track costs and accomplishments.

In addition to the information currently collected under OMB Control No. 1018–0109, we will collect the following additional information currently approved under OMB Control No. 1018–0156:

For mandatory grant program applications and amendments:

- Geospatial entry of project location.
- Project status (active, completed, etc.).
- Project leader contact information.
- Partner information.
- Objectives, including output measures and desired future values.
- Plan information (for projects connected to plans).

For all WSFR grant program projects and reports:

- The information above, as applicable to the approved grant.
- Public description.
- Action status (active, completed, etc.).
- Summary trend information, as applicable.
- Estimated costs, by action. (non-auditable).
- Effectiveness measures (initially for State Wildlife Grants).

For real property acquisition projects, information related to:

- Transactions, such as dates, method of transfer, title holder, and seller.
- Identifiers, such as State and Federal Record ID, parcel number, and property name.
- Values such as appraised value, purchase price and other cost information, and acres or acre feet.
- Encumbrances.
- Partners.
