Endangered and Threatened Wildlife and Plants; 5-Year Status Reviews of 22 Southeastern Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), are initiating

5-year status reviews of 22 species under the Endangered Species Act of 1973, as amended (Act). A 5-year review is an assessment of the best scientific and commercial data available at the time of the review. Therefore, we are requesting submission of information that has become available since the last review of each of these species.

DATES: To allow us adequate time to conduct these reviews, we must receive your comments or information on or before October 31, 2016. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For instructions on how to submit information and review information we receive on these species, see "Request for New Information."

FOR FURTHER INFORMATION CONTACT: For species-specific information, see "Request for New Information."

SUPPLEMENTARY INFORMATION:

Why do we conduct A 5-Year review?

Under the Act (16 U.S.C. 1531 *et seq.*), we maintain lists of endangered and threatened wildlife and plant species in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for wildlife) and 17.12 (for plants). Section 4(c)(2)(A) of the Act requires us to review each listed species' status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species under active review. For additional information about 5-year reviews, go to <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>, scroll down to "Learn More about 5-Year Reviews," and click on our factsheet.

D. Threat status and trends (see five factors under heading “How Do We Determine Whether A Species Is Endangered or Threatened?”); and

E. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

New information will be considered in the 5-year review and ongoing recovery programs for the species.

Definitions

A. *Species* means any species or subspecies of fish, wildlife, or plant, and any distinct population segment of any species of vertebrate which interbreeds when mature.

SUPPLEMENTARY INFORMATION:

I. Abstract

Section 5 of the Indian Reorganization Act of June 18, 1934 (25 U.S.C. 465) and the Indian Land Consolidation Act of January 12, 1983 (25 U.S.C. 2202) authorize the Secretary of the Interior (Secretary), in his/her discretion, to acquire lands through purchase, relinquishment, gift, exchange, or assignment within or without existing reservations for the purpose of providing land for Indian Tribes. Other specific laws also authorize the Secretary to acquire lands for individual Indians and Tribes. Regulations implementing the acquisition authority are at 25 CFR 151. In order for the Secretary to acquire land on behalf of individual Indians and Tribes, the Bureau of Indian Affairs (BIA) must collect certain information to identify the party(ies) involved and to describe the land in question. The Secretary also solicits additional information deemed necessary to make a determination to accept or reject an application to take land into trust for the individual Indian or Tribe, as set out in 25 CFR 151.

This information collection allows the BIA to review applications for compliance with regulatory and statutory requirements. No specific form is used. The burden hours for this continued collection of information are reflected in the Estimated Total Annual Hour Burden in this notice.

II. Request for Comments

The BIA requests your comments on this collection concerning: (a) The necessity of this information collection for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) The accuracy of the agency's estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) Ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) Ways we could minimize the burden of the collection of the information on the respondents.

Please note that an agency may not conduct or sponsor and an individual need not respond to, a collection of information unless it displays a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section.

Before including your address, phone number, email address or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
