SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), have received an application from Alex Perez (applicant) for a 5-year incidental take permit for one covered species pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*, Act). The application addresses the potential “take” of the threatened Mojave Desert tortoise in the course of activities associated with single-family home development activities on 10 acres of private land in the town of Scenic, Mohave County, Arizona. Measures to avoid and minimize impacts resulting from project activities would be implemented as described in the proposed HCP by the applicant.

We are requesting comments on the permit application and on the

preliminary determination that the proposed HCP qualifies as a “low-effect” HCP, eligible for a categorical exclusion under the NEPA of 1969, as amended. The basis for this determination is discussed in the EAS and associated low-effect screening form, which are also available for public review.

Background

The applicant is seeking a 5-year permit under section 10(a)(1)(B) of the Act. If we approve the permit, the applicant anticipates the take of Mojave Desert tortoises (*Gopherus agassizii*) as a result of impacts to habitat the species uses for breeding, feeding, and sheltering. The take would be incidental to the applicant’s activities associated with constructing the Scenic Arizona Perez Home Development.

Mr. Alex Perez purchased the 10 acres in Scenic, Arizona, and subdivided them into eight parcels to be developed with single-family homes. On each parcel, home-development activities would include clearing, building pads for homes and associated garages, and constructing homes and garages.

To minimize take of Mojave Desert tortoises by the project and offset impacts to its habitat, tortoises within the proposed impact areas will be relocated to land managed by the Bureau of Land Management approximately 2 miles southwest of the project site prior to initiation of development activities. It is anticipated that relocated tortoises will continue to contribute to the long-term conservation and survival of the species.

In addition, it is possible that only half of each parcel will be developed, leaving intact suitable tortoise habitat within the project area after project completion. Because tortoises are currently occupying burrows within similar habitat on nearby developed parcels, it is possible that tortoises will continue to use the undeveloped suitable habitat remaining on the project site after project completion.

Our Preliminary Determination

We have made a preliminary determination that the incidental take permit for this project is “low effect” and qualifies for categorical exclusion under the NEPA, as provided by 43 CFR 46.205, 43 CFR 46.210 and 516 Department Manual 8.5(C)(2).

We base our determination that the proposed HCP qualifies as a low-effect plan on the following three criteria:

(1) Implementation of the HCP would result in minor or negligible effects on federally listed, proposed, and

candidate species and their habitats, including designated critical habitat;

(2) Implementation of the HCP would result in minor or negligible effects on other environmental values or resources; and

(3) Impacts of the HCP, considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result, over time, in cumulative effects to environmental values or resources that would be considered significant.

Based upon this preliminary determination, we do not intend to prepare further NEPA documentation. We will consider public comments in making the final determination on whether to prepare such additional documentation.

Next Steps

We will evaluate the proposed HCP and comments we receive to determine whether the permit application meets the requirements and issuance criteria under section 10(a) of the Act (16 U.S.C. 1531 *et seq.*). We will also evaluate whether issuing a section 10(a)(1)(B) incidental take permit would comply with section 7 of the Act by conducting an intra-Service consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue a permit. If the requirements and issuance criteria under section 10(a) are met, we will issue the permit to the applicant for incidental take of Mojave Desert tortoise.

Public Availability of Comments

Written comments we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will not consider anonymous comments. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under section 10(c) of the Act (16 U.S.C. 1531 *et seq.*)

and its implementing regulations (50 CFR 17.22) and the NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6).

Joy E. Nicholopoulos,

Acting Regional Director, Southwest Region.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Division of Permits Management of the National Mall and Memorial Parks issues permits for public gatherings (special events and demonstrations) held on NPS property within the National Capital Region. Regulations at 36 CFR 7.96(g) govern permits for public gatherings and implement statutory mandates to provide for resource protection and public enjoyment. These regulations reflect the special demands on many of the urban National Capital Region parks as sites for demonstrations and special events. A special event is any presentation, program, or display that is recreational, entertaining, or celebratory in nature; e.g., sports events, pageants, celebrations, historical reenactments, regattas, entertainments, exhibitions, parades, fairs, festivals and similar events. The term “demonstration” includes demonstrations, picketing, speechmaking, marching, holding vigils or religious services and all other like forms of conduct that involve the communication or expression of views or grievances.

Those who want to hold a special event or demonstration must complete NPS Form 10–941, “Application for a Permit to Conduct a Demonstration or Special Event in Park Areas” (which also includes a “Waiver of Numerical Limitations on Demonstrations for White House Sidewalk and/or Lafayette Park”). NPS Form 10–941 collects information on:

- Sponsor (name, address, telephone and fax numbers, email address, Web site address).
- Type of permit requested.
- Logistics (dates/times, location, purpose, plans, and equipment for proposed activity).
- Potential civil disobedience and traffic control issues.
- Circumstances that may warrant park rangers being assigned to the event.
