Endangered and Threatened Wildlife and Plants; Initiation of a 5-Year Status Review of the Alaska-Breeding Population of Steller's Eider

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), are initiating a 5-year status review of the Alaska-breeding population of Steller's eider under the Endangered Species Act of 1973, as amended (ESA). A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any new information on the species that has become available since the last review of the species.

DATES: To ensure consideration of your comments in our preparation of this 5-year status review, we must receive your comments and information by March 5, 2018. However, we will accept information about any species at any time.

ADDRESSES: Please submit your information by any one of the following methods:

- Email: Kate.Martin@fws.gov; or
- U.S. mail or hand delivery: U.S.

Fish and Wildlife Service, ATTN: Kate Martin 1011 East Tudor Road, Anchorage, AK 99503.

For more about submitting information, see Request for Information in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Kate Martin, Fairbanks Fish and Wildlife Field Office, by telephone at 907-786-3459 (phone). Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We are initiating a 5-year status review under the ESA for the Alaska-breeding population of Steller's eider. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of information that has become available since the last review of the species.

Why do we conduct 5-year reviews?

Under the ESA (16 U.S.C. 1531 *et seq.*), we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every

5 years. Further, our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species under active review. For additional information about 5-year reviews, go to <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>, scroll down to "Learn More about 5-Year Reviews," and click on the "5-Year Reviews" link.

What information do we consider in our review?

A 5-year review considers all new information available at the time of the review. In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status review, such as:

- (1) The biology of the species, including but not limited to population trends, distribution, abundance, demographics, and genetics;
- (2) Habitat conditions, including but not limited to amount, distribution, and suitability;
- (3) Conservation measures that have been implemented that benefit the species;
- (4) Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA); and
- (5) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year review and

will also be useful in evaluating the ongoing recovery programs for the species.

If you submit information, please support it with documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources. If you submit purported sightings of the species, please also provide supporting documentation in any form to the extent that it is available.
