SUPPLEMENTARY INFORMATION:

Background

The Endangered Species Act of 1973,
as amended (ESA; 16 U.S.C. 1531 *et*

seq.), prohibits certain activities with
endangered and threatened species
unless authorized by a Federal permit.
The ESA and our implementing
regulations in part 17 of title 50 of the
Code of Federal Regulations (CFR)
provide for the issuance of such permits
and require that we invite public
comment before issuing permits for
activities involving endangered species.

A recovery permit issued by us under
section 10(a)(1)(A) of the ESA
authorizes the permittee to conduct
activities with endangered species for
scientific purposes that promote
recovery or for enhancement of
propagation or survival of the species.
Our regulations implementing section
10(a)(1)(A) for these permits are found
at 50 CFR 17.22 for endangered wildlife
species, 50 CFR 17.32 for threatened
wildlife species, 50 CFR 17.62 for
endangered plant species, and 50 CFR
17.72 for threatened plant species.

Office of Financial Management has submitted to OMB for approval for the Department and its Bureaus and Offices to continue to collect information from proposed donors relative to their relationship(s) with the Department. The Donor Certification form (DI-3680) is completed and certified by the prospective donor then submitted to the Department or its Bureau or Office for review. Having the donor certify their interactions with the Department gives the staff vetting the proposed donation basic information to be verified, resulting in a more efficient and timely donation review process.
