Agency Information Collection Activities; U.S. Fish and Wildlife Service Bison Donations Request Form

AGENCY: Fish and Wildlife Service, Interior.
ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Fish and Wildlife Service (Service), are proposing a new information collection in use without Office of Management and Budget (OMB) approval.

DATES: Interested persons are invited to submit comments on or before October 11, 2022.

ADDRESSES: Send your comments on the information collection request (ICR) by

one of the following methods (reference Office of Management and Budget (OMB) Control Number 1018—Bison in the subject line of your comment):

- *Internet (preferred):* <https://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS–HQ–NWRS–2022–0087.
- *Email:* Info_Coll@fws.gov.
- *U.S. Mail:* Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, 5275 Leesburg Pike, MS: PRB (JAO/3W), Falls Church, VA 22041–3803.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Madonna L. Baucum, Service Information Collection Clearance Officer, by email at Info_Coll@fws.gov, or by telephone at (703) 358–2503. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act (PRA, 44 U.S.C. 3501 *et seq.*) and its implementing regulations

at 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of

information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Service's "Bison Donations Transfer Protocol" (protocol) describes the process for the donation of the available surplus bison from the Service to eligible organizations, Tribes, or intertribal organizations as outlined in regulations at 50 CFR 30.1, as well as in Service Manual chapters 701 FW 5 and 701 FW 8. Surplus bison are offspring that exceed the ecological carrying capacity of the Service bison metapopulation. The primary purposes of donating these bison are to support conservation of the species as native North American wildlife and to assist in the restoration of bison herds on conservation partner lands, with special emphasis on restoring conservation herds to Tribal lands. Our authorities governing the Protocol include:

- National Wildlife Refuge System Administration Act (16 U.S.C. 668dd and 668ee; as amended);
- American Indian Religious Freedom Act (Pub. L. 95–341);
- Indian Self-Determination and Education Assistance Act (Pub. L. 93–638, as amended);
- Surplus Range Animals (50 CFR 30.1);
- Disposition of Surplus Range Animals (50 CFR 30.2);
- Native American Policy of the U.S. Fish and Wildlife Service (510 FW 1);
- Fenced Animal Management policy (701 FW 8); and
- Collections, Donations, and Disposals policy (701 FW 5).

In 2020, the U.S. Department of the Interior (DOI) Bison Working Group published the *Department of the Interior*

Bison Conservation Initiative 2020 (2020 initiative), recognizing bison as a wildlife species in need of conservation. Consistent with this initiative, Service policy identifies the ecological and cultural values of bison as nationally and/or historically significant animals.

The *Bison Conservation Genetics Workshop: Report and Recommendations* (2010 report) identifies DOI bison herds as a valuable source with which to start new conservation herds proposed by other Federal, State/provincial, or Tribal governments. The *DOI Bison Report: Looking Forward* (2014 report) acknowledges the challenges to achieving bison restoration on DOI lands and emphasizes the importance of partnerships for achieving bison conservation and ecological restoration. Both the 2010 and 2014 reports also identify the potential for bison herds maintained by Indian Tribes to contribute to species conservation, and the Service recognizes that such bison may also support Tribal cultural rights and practices.

Periodic reduction in the size of Service bison herds is required to remain within the ecological carrying capacity of Service lands. Live bison capture and removal assists in the restoration of bison to Tribal lands, supports the efforts of States and other conservation organizations, and ensures that the ecological needs of other species are met on limited-size refuges. To support maximum conservation of genetic diversity within and across Service herds, selection of young bison available for donation is coordinated across all refuges. From the surplus bison made available for donation from refuges, requests will be prioritized for bison restoration and conservation purposes.

We propose Form 3–2555, "Bison Donations Request Form," to request surplus bison. Respondents will generally be from Tribal governments and intertribal organizations, although we do expect to receive a small number of requests from States and private sector organizations (nonprofit and educational/research organizations). The request form provides details governing the protocol and collects the following information:

- Name of requesting Tribe, intertribal organization, State, or private sector organization.
- Documentation that the proposed project or program meets the definition of a conservation herd.

- Demonstration of the educational contribution of the donation to increasing public knowledge and appreciation of the wildlife values of bison (for educational and research organizations only).

- Total number (or percentage of total donation request) of bison and purpose of request:

- Establish a free-ranging conservation herd;
- Supplement or augment a free-ranging conservation herd;
- Establish a self-sustaining herd for non-conservation purposes;
- Supplement or augment a self-sustaining herd for non-conservation purposes;
- Public display, educational purposes and/or research;
- Tribal spiritual or cultural purposes; or
- A description if "Other" purpose.

- Signature of requesting Tribe, intertribal organization, State, or private sector organization official.

In addition to completion of Form 3–2555, recipients of donated bison must inform the Service of the destination State for donated bison no fewer than 30 days prior to a scheduled bison capture operation, to allow the Service time to meet interstate transport regulatory testing requirements. Recipients of donated bison must also inform the Service of the destination physical address for donated bison no fewer than 10 days prior to scheduled bison loadout, to facilitate timely completion of required interstate veterinary permit applications and veterinary inspection certificates.

The public may request a copy of the proposed Form 3–2555 by sending a request to the Service Information Collection Clearance Officer (see **ADDRESSES**, above).

Endangered Species; Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits, permit renewals, and/or permit amendments to conduct activities intended to enhance the propagation or survival of endangered species under the Endangered Species Act of 1973, as amended. We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive written data or comments on the applications by September 12, 2022.

ADDRESSES:

Reviewing Documents: Documents and other information submitted with the applications are available for review, subject to the requirements of the

Privacy Act and Freedom of Information Act. Submit a request for a copy of such documents to Karen Marlowe (see **FOR FURTHER INFORMATION CONTACT**).

Submitting Comments: If you wish to comment, you may submit comments by one of the following methods:

- *U.S. Mail:* U.S. Fish and Wildlife Service Regional Office, Ecological Services, 1875 Century Boulevard, Atlanta, GA 30345 (Attn: Karen Marlowe, Permit Coordinator).
- *Email:* permitsR4ES@fws.gov.

Please include your name and return address in your email message. If you do not receive a confirmation from the U.S. Fish and Wildlife Service that we have received your email message, contact us directly at the telephone number listed in **FOR FURTHER INFORMATION CONTACT**.

FOR FURTHER INFORMATION CONTACT: Karen Marlowe, Permit Coordinator, 404–679–7097 (telephone), karen_marlowe@fws.gov (email), or 404–679–7081 (fax). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We invite review and comment from the public and local, State, Tribal, and Federal agencies on applications we have received for permits to conduct certain activities with endangered and threatened species under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and our regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17. With some exceptions, the ESA prohibits take of listed species unless a Federal permit is issued that authorizes such take. The ESA’s definition of “take” includes hunting, shooting, harming, wounding, or killing, and also such activities as

pursuing, harassing, trapping, capturing, or collecting.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to take endangered or threatened species while engaging in activities that are conducted for scientific purposes that promote recovery of species or for enhancement of propagation or survival of species. These activities often include the capture and collection of species, which would result in prohibited take if a permit were not issued. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild. The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
