As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic,

mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*) makes it unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (see 16 U.S.C. 1538(d)). The ESA also requires that fish or wildlife be imported into or exported from the United States only at a designated port, or at a nondesignated port under certain limited circumstances (see 16 U.S.C. 1538(f)). This information collection includes the following permit/license application forms:

FWS Form 3-200-2, “Designated Port Exception Permit”

Under 50 CFR 14.11, it is unlawful to import or export wildlife or wildlife products at ports other than those designated in 50 CFR 14.12, unless you qualify for an exception. The following exceptions allow qualified individuals, businesses, or scientific organizations to import or export wildlife or wildlife products at a nondesignated port:

- (a) To export the wildlife or wildlife products for scientific purposes;
- (b) To minimize deterioration or loss; or
- (c) To relieve economic hardship.

To request authorization to import or export wildlife or wildlife products at nondesignated ports, applicants must complete FWS Form 3-200-2. Designated port exception permits can be valid for up to 2 years. We may require a permittee to file a report on activities conducted under authority of the permit.

FWS Form 3–200–3a, “Federal Fish and Wildlife Permit Application Form: Import/Export License—U.S. Entities,” and 3–200–3b, “Federal Fish and Wildlife Permit Application Form: Import/Export License—Foreign Entities”

It is unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (50 CFR 14.91). Applicants located in the United States must complete FWS Form 3–200–3a to request this license. Foreign applicants that reside or are located outside the United States must complete FWS Form 3–200–3b to request this license.

We use the information collected on FWS Forms 3–200–3a and 3–200–3b as an enforcement tool and management aid to (a) monitor the international wildlife market and (b) detect trends and changes in the commercial trade of wildlife and wildlife products. Import/export licenses are valid for up to 1

year. We may require a licensee to file a report on activities conducted under authority of the import/export license.

Proposed Revision

With this submission, we propose to revise application forms 3–200–2 and 3–200–3a to correct an error which removed the tax ID (Social Security Number or Employer Identification Number) field from the forms in the most recent revision of this collection. This critical information is used by wildlife inspectors and special agents during law enforcement investigations to ensure the identities of individuals are accurate and not mistaken while investigating wildlife crimes and to verify the applicant is the same person that had knowledge of wildlife laws and regulations.
