

Type of Information Collection:
Revision of a currently approved information collection.

OMB Number: 1660-0070.

FEMA Forms: FEMA Form FF-USFA-FY-21-100—Paper Version (formerly 070-0-0-1); FEMA Form FF-USFA-FY-21-110—Online Version (formerly the screenshots of FEMA Form 070-0-0-1).

Abstract: This collection seeks to identify fire departments in the United States to compile a database related to their demographics, capabilities, and activities. The database is used to guide programmatic decisions and provide information to the public and the fire service.

Affected Public: State, local or tribal government.

Estimated Number of Respondents: 6,375.

Estimated Number of Responses: 6,375.

Estimated Total Annual Burden Hours: 1,219.

Estimated Total Annual Respondent Cost: \$9,371.

Estimated Respondents' Operation and Maintenance Costs: \$0.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$100,058.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Millicent Brown Wilson,

Records Management Branch Chief, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

Establishment of Lost Trail Conservation Area, Montana

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: This notice advises the public that the U.S. Fish and Wildlife Service (Service) has established the Lost Trail Conservation Area (LTCA), the 568th unit of the National Wildlife Refuge System. The Service established LTCA on July 13, 2022, with the purchase of a 38,052-acre conservation easement in Flathead and Lincoln counties, Montana.

ADDRESSES: Information on LTCA, including a map depicting the approved conservation area boundary, is available at <https://www.fws.gov/media/lost-trail-conservation-area-land-protection-plan-and-environmental-assessment>.

FOR FURTHER INFORMATION CONTACT: Jamie Hanson, Conservation Planner, (720) 591-8458 or via U.S. mail at Division of Refuge Planning, USFWS, P.O. Box 25486, DFC, Denver, CO 80225. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), have established the Lost Trail Conservation Area (LTCA), the 568th unit of the National Wildlife Refuge System. We established LTCA on July 13, 2022, with the purchase of a 38,052-acre conservation easement in the northwestern part of Montana, in Flathead and Lincoln Counties. Conservation areas are National Wildlife Refuge System units that consist primarily or entirely of conservation easements on private lands. LTCA is unique in that it includes private timberland that has historically been open to the public on a voluntary basis. The establishment of this conservation area ensures that public recreational access to this land is maintained in perpetuity. LTCA will allow sustainable commercial timber harvests and provide wildlife-dependent recreational

opportunities such as hunting, fishing, hiking, and wildlife viewing.

Conservation Area

LTCA's acquisition boundary delineates parcels where the Service may consider negotiations with willing sellers for easement acquisition. Conservation easements will protect critical, State-identified wildlife corridors; guarantee public access for sportspersons and outdoor enthusiasts in perpetuity; and allow for sustainable timber harvest that supports the local economy in northwest Montana. The project protects crucial habitat and linkage corridors for federally listed species, including grizzly bear, Canada lynx, Spalding's catchfly, and other federal trust species. This land will also secure a vital migration corridor for elk and mule deer. Part of the Heart of the Salish Priority Area identified in the Montana Fish, Wildlife, and Parks' Secretarial Order 3362, "State Action Plan for Big Game Winter Range and Migration Corridors," the land within the project area provides over 6,000 hunter-use days per year and is the core area of the most popular elk-hunting district in northwest Montana. LTCA will also support Department of the Interior Secretarial Orders 3347, "Conservation Stewardship and Outdoor Recreation," and 3356, "Hunting, Fishing, Recreational Shooting, and Wildlife Conservation Opportunities and Coordination with States, Tribes, and Territories," by enhancing conservation stewardship; protecting outdoor recreation opportunities for all Americans, including opportunities to hunt and fish; and supporting game species and their habitats for this generation and beyond.

LTCA was funded by the Great American Outdoors Act and Land and Water Conservation Fund. The Service worked in partnership with the Trust for Public Land and the Confederated Salish and Kootenai Tribes (CSKT) to purchase the 38,052-acre conservation easement from continuing owner SPP Montana.

Public Involvement Process

In order to provide the public an opportunity to engage in the planning process, and in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), the Service prepared a draft environmental assessment (EA) that evaluated two alternatives and their potential impacts on the project area. The Service released the draft EA with a land protection plan on September 16, 2020, for a 30-day

scoping, public review, and comment period.

The Service coordinated closely with Montana Fish, Wildlife and Parks and Tribes that were potentially affected by the proposal. CSKT expressed their strong support for the project. The Service also reached out to the county commissioners for Lincoln and Flathead counties and received a letter of support from both counties.

In early 2021, the Service released the final EA and land protection plan to authorize easement purchases from willing sellers within the LTCA. In developing the plan, the Service consulted with CSKT on prioritizing important wildlife habitat and its connection to their conserved lands, as well as with the State of Montana to connect landscape-level conservation efforts. Permanent easements on up to 100,000 acres may be added within the project boundary.

Based on the documentation contained in the EA, a finding of no significant impact was signed on November 20, 2020, for the authority to establish the LTCA.

Authorities

The acquisition authorities for easement lands within the proposed LTCA boundary are the Migratory Bird Conservation Act (16 U.S.C. 715a–r), the Migratory Bird Hunting and Conservation Stamp Act (16 U.S.C. 718a–k), the Refuge Recreation Act (16 U.S.C. 460k–460k–4), the Land and Water Conservation Fund Act of 1965 (54 U.S.C. 200301–200310), the Fish and Wildlife Act of 1956 (16 U.S.C. 742a–j), and the National Wildlife Refuge System Administration Act (16 U.S.C. 668dd *et seq.*).

Anna Muñoz,

Deputy Regional Director, Mountain-Prairie Region.

[Docket No. FWS–R6–ES–2021–0056; FF06E21000 234 FXES11140600000]

Endangered and Threatened Wildlife and Plants; Proposed Amendment to Programmatic Safe Harbor Agreement and Candidate Conservation Agreement With Assurances for Kansas Aquatic Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), are announcing the availability of documents associated with an application to amend an enhancement of survival permit (permit) under the Endangered Species Act. The Kansas Department of Wildlife and Parks has applied to amend the existing *Programmatic Safe Harbor Agreement and Candidate Conservation Agreement with Assurances for 14 Aquatic Species in Kansas* (SHA/CCAA) by adding one additional covered species, the western fanshell (*Cyprogenia aberti*). The documents available for review and comment are the applicant's proposed amended programmatic SHA/CCAA, which is part of the permit amendment application, and our draft environmental action statement and low-effect screening form, which support a categorical exclusion for the amendment under the National Environmental Policy Act. We invite comments from the public and Federal, Tribal, State, and local governments.

DATES: We will accept comments received or postmarked on or before November 14, 2022. Comments submitted online at <https://www.regulations.gov> (see **ADDRESSES**) must be received by 11:59 p.m. Eastern Time on November 14, 2022.

ADDRESSES:

Obtaining Documents: The documents this notice announces, as well as any comments and other materials that we receive, will be available for public inspection online in Docket No. FWS–R6–ES–2014–0048 at <https://www.regulations.gov>.

Submitting Comments: To submit written comments, please use one of the following methods, and note that your information request or comments are in reference to the Kansas Aquatic SHA/CCAA amendment.

- *Online:* <https://www.regulations.gov>. Follow the instructions for submitting comments on Docket Number FWS–R6–ES–2014–0048.

- *U.S. Mail:* Public Comments Processing, Attn: Docket No. FWS–R6–ES–2014–0048; U.S. Fish and Wildlife Service Headquarters, MS: PRB/3W; 5275 Leesburg Pike; Falls Church, VA 22041–3803.

FOR FURTHER INFORMATION CONTACT:

Gibran Suleiman, by phone at 785–539–3474, extension 114, or by email at gibran_suleiman@fws.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a

speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), have received an application from the Kansas Department of Wildlife and Parks (KDWP, applicant) to amend their existing 50-year enhancement of survival permit (permit) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The amendment requests the addition of 1 species, the western fanshell, which is currently proposed for Federal listing as a threatened species, to the 14 species that are already covered by the applicant's existing approved programmatic safe harbor agreement (SHA) and candidate conservation agreement with assurances (CCAA) on non-Federal lands in the State of Kansas. The documents available for review and comment are the applicant's proposed amended programmatic SHA/CCAA, which is part of the permit amendment application, and our draft environmental action statement and low-effect screening form for the amendment request, which support a categorical exclusion under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*) We invite comments on documents from the public and Federal, Tribal, State, and local governments.

Background

Via a **Federal Register** notice published on September 15, 2021 (86 FR 51366), we announced the availability of KDWP's original application for an enhancement of survival permit with a 50-year term, which included a proposed programmatic SHA/CCAA for 14 aquatic species in Kansas, and our draft environmental action statement and low-effect screening form, which supported a categorical exclusion under NEPA. The comment period was open until October 15, 2021. After considering the application and associated materials, we issued the requested permit. To provide background information, we have made the original 2021 proposed programmatic SHA and CCAA, along with related documents and comments, available for review in <https://www.regulations.gov> under Docket No. FWS–R6–ES–2021–0056; however, we will not be taking further comments on those documents.
