Individuals in the United States who are  
deaf, deafblind, hard of hearing, or have  
a speech disability may dial 711 (TTY,  
TDD, or TeleBraille) to access  
telecommunications relay services.  
Individuals outside the United States  
should use the relay services offered  
within their country to make  
international calls to the point-of-  
contact in the United States.

**SUPPLEMENTARY INFORMATION:** In  
accordance with the Paperwork  
Reduction Act (PRA, 44 U.S.C. 3501 *et  
seq.*) and its implementing regulations  
at 5 CFR 1320.8(d)(1), all information  
collections require approval under the  
PRA. We may not conduct or sponsor  
and you are not required to respond to

a collection of information unless it  
displays a currently valid OMB control  
number.

On July 6, 2022, we published a  
**Federal Register** notice with a 60-day  
public comment period soliciting  
comments on this collection of  
information (87 FR 40261). In that  
notice, we solicited comments for 60  
days, ending on September 6, 2022. In  
an effort to increase public awareness  
of, and participation in, our public  
commenting processes associated with  
information collection requests, the  
Service also published the **Federal  
Register** notice on [https://  
www.regulations.gov](https://www.regulations.gov) [Docket No. FWS–  
R4–OSA–2022–0086]. We received one  
comment in response to that notice  
which did not address the information  
collection requirements; therefore, no  
response was required.

As part of our continuing effort to  
reduce paperwork and respondent  
burdens, we invite the public and other  
Federal agencies to comment on new,  
proposed, revised, and continuing  
collections of information. This helps us  
assess the impact of our information  
collection requirements and minimize  
the public’s reporting burden. It also  
helps the public understand our  
information collection requirements and  
provide the requested data in the  
desired format.

We are especially interested in public  
comment addressing the following:

- (1) Whether or not the collection of  
information is necessary for the proper  
performance of the functions of the  
agency, including whether or not the  
information will have practical utility;
- (2) The accuracy of our estimate of the  
burden for this collection of  
information, including the validity of  
the methodology and assumptions used;
- (3) Ways to enhance the quality,  
utility, and clarity of the information to  
be collected; and
- (4) How might the agency minimize  
the burden of the collection of  
information on those who are to  
respond, including through the use of  
appropriate automated, electronic,  
mechanical, or other technological  
collection techniques or other forms of  
information technology, *e.g.*, permitting  
electronic submission of response.

Comments that you submit in  
response to this notice are a matter of  
public record. We will include or  
summarize each comment in our request  
to OMB to approve this ICR. Before  
including your address, phone number,  
email address, or other personal  
identifying information in your  
comment, you should be aware that  
your entire comment—including your  
personal identifying information—may

be made publicly available at any time.  
While you can ask us in your comment  
to withhold your personal identifying  
information from public review, we  
cannot guarantee that we will be able to  
do so.

**Abstract:** The Fish and Wildlife Act of  
1956 (16 U.S.C. 742d) designates the  
Department of the Interior as a key  
agency responsible for the conservation  
and protection of wildlife and fisheries  
resources in the United States. This  
responsibility requires the Service to  
gather accurate data on conservation  
efforts through means such as research  
to improve the development,  
management, and advancement of  
efforts. The Service’s Science  
Applications and Migratory Bird  
Program in the Service’s Southeast  
Region is seeking to conduct a social  
network analysis to collect information  
regarding regional conservation efforts,  
conservation partnership goals,  
structure, and focal geography, and the  
connectedness of these efforts and  
partnerships. The proposed survey  
collects information necessary to  
address this gap in understanding and  
will serve to advance the Southeast  
Conservation Adaptation Strategy’s  
(SECAS) leadership role as a regional  
forum and decision-support hub.

The proposed survey collects the  
following information:

- Familiarity and engagement with  
SECAS, including satisfaction with  
SECAS aspects and importance of  
SECAS indicators (section 2);
- Organizational conservation  
priorities, including level of importance  
and usefulness of and reliance on  
SECAS resources (section 3);
- Conservation partnerships,  
including identification of partner  
organizations and collaboration types  
(section 4); and
- Organizational information,  
including type of organization and  
scope of work (section 5).

The information collected in this  
effort will be used to develop multiple  
products aimed at translating the data  
into information that can strengthen  
partnerships, identify gaps, and inform  
conservation decisions.

The public may request a copy of the  
proposed survey instrument by sending  
a request to the Service Information  
Collection Clearance Officer (see  
**ADDRESSES**, above).

Conservation Adaptation Strategy  
(SECAS) Social Network Analysis.

**Abstract:** Congress passed legislation specifically addressing oil and gas leasing on Osage lands and requiring Secretarial approval of leases. *See* 34 Stat. 543, section 3, as amended.
