With this notice, we are reopening the public comment period on the EA and HCP to provide requested appendices to the HCP not originally provided during the initial comment period (see **DATES** and **ADDRESSES**).

Availability of Public Comments

You may submit comments by one of the methods shown in **ADDRESSES**. We will post on <https://www.regulations.gov> all public comments and information received electronically or via hardcopy. All comments received, including names and addresses, will become part of the administrative record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under section 10(c) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.22) and the National Environmental Policy Act (42 U.S.C. 4371 *et seq.*) and its implementing regulations (40 CFR 1506.6; 43 CFR part 46).

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews for 133 Species in Oregon, Washington, Idaho, Montana, California, Nevada, Hawaii, Guam, and the Commonwealth of the Northern Mariana Islands

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews for 133 species in Oregon, Washington, Idaho, Montana, California, Nevada, Hawaii, Guam, and the Commonwealth of the Northern Mariana Islands under the Endangered Species Act of 1973. Two of these species also occur outside of United States jurisdiction in Canada and Palau. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any new information on these species that has become available since the last reviews.

DATES: To ensure consideration in our reviews, we are requesting submission of new information no later than May 22, 2023. However, we will continue to accept new information about any species at any time.

ADDRESSES: *Submitting Information on Species:*

- Columbia Basin pygmy rabbit:
 - > *U.S. mail:* State Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Washington Fish and Wildlife Office, 510 Desmond Dr. Southeast, Suite 102, Lacey, WA 98503; or
 - > *Email:* WFWO_LR@fws.gov.
- Any of the seven species occurring in Oregon:
 - > *U.S. mail:* State Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Oregon Fish and Wildlife Office, 2600 SE 98th Ave., Suite 100, Portland, OR 97266; or
 - > *Email:* fw1ofwo@fws.gov.
- White sturgeon, Banbury Springs limpet, and Bliss Rapids snail:
 - > *U.S. mail:* State Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Idaho Fish and Wildlife Office, 1387 S. Vinnell Way, Suite 368, Boise, ID 83709; or

> *Email:* ifwo@fws.gov.

- Any of the 122 species occurring in Hawaii, Guam, and/or the Commonwealth of the Northern Mariana Islands:
 - > *U.S. mail:* Field Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Pacific Islands Fish and Wildlife Office, 300 Ala Moana Blvd., Room 3-122, Honolulu, HI 96850; or
 - > *Email:* pifwo_admin@fws.gov.

FOR FURTHER INFORMATION CONTACT: For general information, please contact Grant Canterbury at 503-231-6151. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

For information about the following specific species, contact the following people:

- *Columbia Basin pygmy rabbit:* Rose Agbalog, Washington Fish and Wildlife Office, 564-200-2124; WFWO_LR@fws.gov.
- *Any of the seven species occurring in Oregon:* Jennifer Siani, Oregon Fish and Wildlife Office, 503-231-6179; fw1ofwo@fws.gov.
- *White sturgeon, Banbury Springs limpet, and Bliss Rapids snail:* Greg Burak, Idaho Fish and Wildlife Office, 208-378-5243; ifwo@fws.gov.
- *Any of the 122 species occurring in Hawaii, Guam, and/or the Commonwealth of the Northern Mariana Islands:* Megan Laut, Pacific Islands Fish and Wildlife Office, 808-792-9400, pifwo_admin@fws.gov.

SUPPLEMENTARY INFORMATION:

Why do we conduct 5-year status reviews?

Under the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531, *et seq.*), we maintain lists of endangered and threatened wildlife and plant species (referred to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for wildlife) and 17.12 (for plants). Section 4(c)(2) of the Act requires us to review each listed species' status at least once every 5 years. For additional information about 5-year status reviews, refer to our factsheet at <https://www.fws.gov/project/five-year-status-reviews>.

What information do we consider in our review?

A 5-year status review considers all new information available at the time of

the review. In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status reviews, such as:

A. Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

B. Habitat conditions, including but not limited to amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the Act); and

E. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year status review and will also be useful in evaluating the ongoing recovery programs for these species.

Which species are under review?

This notice announces our active review of 133 species, including 4 mammals, 13 birds, 3 fishes, 2 snails, 4 insects, 2 crustaceans, and 105 plants, as listed in the table below.

Common name	Scientific name	Status	Known range of species occurrence	Final listing rule and publication date

Request for New Information

To ensure that a 5-year status review is complete and based on the best available scientific and commercial information, we request new information from all sources. See What Information Do We Consider in Our Review? for specific criteria. If you submit information, please support it with documentation such as maps, references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

If you wish to provide information for any species listed in the table, please submit your comments and materials to the appropriate contact in ADDRESSES.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Caracara, Brevard County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Forestar (USA) Real Estate Group (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally threatened Audubon’s crested caracara (*Polyborus plancus audubonii*), a raptor, incidental to the construction of a proposed residential development in Brevard County, Florida. We request public comment on the application, which includes the applicant’s proposed habitat conservation plan (HCP), and on the Service’s preliminary determination that the proposed permitting action may be eligible for a categorical exclusion pursuant to the

Council on Environmental Quality’s National Environmental Policy Act (NEPA) regulations, the Department of the Interior’s (DOI) NEPA regulations, and the DOI Departmental Manual. To make this preliminary determination, we prepared a draft environmental action statement and low-effect screening form, both of which are also available for public review. We invite comment from the public and local, State, Tribal, and Federal agencies.

DATES: We must receive your written comments on or before April 24, 2023.

ADDRESSES: Obtaining Documents: You may obtain copies of the documents online in Docket No. FWS–R4–ES–2023–0029 at <https://www.regulations.gov>.
